

# Autumn Tints.

With the coming of cool weather all light clothing cast aside and we don that which protects from the sudden changes in the weather, so common at this time of the year.

We have just received a complete line of all the very latest novelties in

Cloths, Cassimers, Corkscrews, Woosteds,

and other goods, suitable for Fall and Winter Wear, which we make up in the latest styles, most substantial manner at prices that astonish everybody.

We still make those famous \$10.00 ALL-OOL SUITS which proved so satisfactory to all who purchased of them when we first commenced their make. We make the same suit now, at the same price, and the material we use is as good as ever.

We would call your attention to our Gents Furnishing Department which embraces the most recent novelties in

Collars, Cuffs, Neckwear,

Underwear, &c. In Ladies, Gents and Children's shoes, we have everything that is likely to be in demand.

We invite you to call, feeling sure we can please you, no matter what you want.

Very Respectfully,

**Carbon Advocate Office,**  
Bank Street, Lehighton, Penna.

For eight years Col. D. J. Williamson, Quarter-Master, U. S. A. and ex-U. S. Consul at Calao, was crippled with rheumatism. He got no relief until he used Dr. James' Ointment, which cured him. No remedy on earth equals it for pain. Price, fifty cents a bottle.

Used Red Star Cough Cure effectually.  
Dr. C. Fawcett, Union Protestant Infirmary, Baltimore, Md. No depressing effects.

**Excitement in Texas.**  
Great excitement has been created in the vicinity of Paris, Texas, by the remarkable recovery of Mr. J. E. Corley, who was a helpless leprosy victim until he was rased of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills, by the time he had taken two boxes of Pills and two bottles of the Discovery he was well, and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free at T. D. Thomson's.

**Game in and out of Season.**  
The game laws of several States contain penalties not only against killing game out of season but also against killing, disposing of, or having it in possession during the close time. The question has arisen whether they apply when the game was killed during the open season of the State where the penalty is sought to be enforced, or has been brought from another State where it is lawful to have it in possession. The decisions on this point are conflicting. "The mandate is that any person having in his or her possession (when certain dates certain specified game, killed, shall be liable to a penalty." The time when or the place where the game was killed, or where from, is not made material by the statute, and we have no power to make it so. State laws forbidding the transportation of game during close seasons do not infringe the right of Congress to regulate interstate commerce. But a State law forbidding transportation into or out of a State of game killed or captured during the open season of the State making the law unconstitutional. If a statute prohibits "killing or taking" birds, etc., taking means "killing," not "taking away." And if it prohibits having "in possession any bird of game," it includes live as well as dead birds. If the law prohibits hunting or trapping game on Sunday, a man who sets a snare on a week day and leaves it open on the following Sunday is liable, if game be caught therein on that day, even though he did not then watch over his snare.

**Orchard and Fruit Garden in November.**  
Caring for disposing of the harvested crops and extending the plantations, which make this, in mild localities, a busy month—care of what we have should be the first consideration. See that fences and gates are made secure for winter. Young trees in windy places may have a mound of earth drawn up to their trunks to stiffen them, or they may be staked. A mound of earth a foot high will keep away mice. Trap or shoot rabbits; they are fat and good at this season—Planting Trees.—Where the autumn is mild, apple trees may be planted. For planting neat sprig other trees now and heel them in, to be ready for planting. If not already done, make a list of the orchard, so that the name of each tree may be known by its position.—Keep Apples in barrels under a shed until freezing weather; then take to the cellar, which should be kept open as long as possible. Cider should be made in cool weather, when fermentation can go on slowly.—Prune grapes and currant bushes, saving the prunings for cuttings.—Raspberries.—Bend down the canes of tender sorts and cover with earth.—Strawberries.—Cover the beds with straw. Cornstalks are a good substitute.

**Watering Sheep.**  
Too much stress can hardly be laid on the importance of looking well at the matter of watering sheep in winter. "You can lead a horse to water, but you cannot make him drink." This adage would hardly be true of the sheep. It will drink after awhile. When a sheep comes out of the stable a trifle chilly, with its blood stagnant after twenty-four hours' quill, it feels touchy, and it will sniff and sample here and there in a way which is aggravating to the shepherd who is watching on its motions. It may be fifteen minutes before it can drink itself. It may utterly refuse to drink, whereas, if it could go and take a run of half an hour, so it would return and drink a surprising quantity. If this sheep had been lastly shut up by an impatient shepherd, it would have suffered before twenty-four hours elapsed and would not have come as freely as it ought and consequently would have begun to lose condition.
