He tells them how to secure a large draught of fishes, and when they come to shore, preceded by the irrepressible Peter, He asks them to dine with Him. Then He asks Peter the triple question as to his love for Him, and gives him the threefold command. Thrice killing of Clark Wells, has been acquitted, the in the judgment hall Peter denied his Master; three times on the shores of Galilee he confessed the Christ.

After a series of lessons of such thrilling recently. Rev. Gregory a Wilkesbarre divine import it is fitting that we should consider officiated, and Commissioners Straw and English Iohn's beautiul description of Christ as the acted as ushers, best man and brides-maid with Light of the world, with all the blessings that such Light confers.

Then we come to the marvelous and splendid rectial of John contained in the Revelation; its wondrous visions and majestic descriptions and thrilling situations. We see the vision of Christ, full of glory and power. When no one in heaven or earth or under the earth is competent to open the book which John saw, he is told that there is only One who can undertake it, and that One is the slain Lamb; the Lion of the tribe of Judah, the Christ. Before Him the hosts of Heaven fall down and worship and offer to Him ascriptions of thanksgiving and praise.

The Revelation, at its close, gives a beautiful invitation to the human race to come to Jesus and find in Him a full satisfaction, a free pardon, a complete salvation. "Who soever will," can come to Jesus and besaved. O, that all men might hear the invitation

and accieptto their eternal salvation. The County Superintendency of Schools-Mn. Entron: The Teachers' Institut. held at Mauch Chunk developed the fact that there are a number of candidates who aspire to the office of County Superintendent, Since there will be an election for a County Superintendent next May or June, this is the proper time to discuss the merits and availability of a proper person for that important position. The County Superintendency should be entire y divorced from all questions of politics and re-lgion. We should jealously guard this position that it may not become a political office, and we should support no man who is put forward as the representative of any political faction or party.

The dignity of the office; the nature of its functions; its efficiency for good and exefutivess; its influence on the young; the good of society at large, all demand that no man should be elected
