The Only Way to Conquer Dyspepsia.

It is perfectly preposterous to introduce pepsin and other artificial solvents into the stomach, in the expectation that they will assist digestion by acting on the food itself. They will not. Nor is it possible thus to overcome dyspepsia. The only way to conquer that disorder, and prevent the numerous diseases and disabilities which it assuredly provokes, is to renew the activity of gastric action by strengthening the stomach. Hostetter's Stomach Bitters eradicates the most inveterate forms of indigestion by restoring vitality to the alimentary organs, and those which are tributary to them. The liver, the bowels, the kidneys and the nerves, no less than the stomach, experience the invigorative effects of that standard tonic, which possesses alterative properties that greatly enhance its beneficial influence, and give a permanence to its effects which they would not otherwise possess.

Ought to be Known by All!

The wonderfully quick and certain relief afforded by Fontaine's Cure in cases of cold, cough, croup, bronchitis and asthma. It will cure a cold in 12 minutes! The first dose will give relief. It will cure croup in as many minutes. A child's life may be saved by its timely use. It is a radical cure for Asthma. It should always be in the house, ready for an emergency. Can you, or any person afford to take a risk, when you can absolutely guard against it? Whooping-cough, consumption and bronchitis will yield to this medicine when others have failed. Sold at Dr. C. T. Horn's drug store.

—The wind is always blowing about something; but there is nothing in it.

What is a cold in the head? Medical authorities say it is due to atmospheric germs, uneven clothing of the body, rapid cooling when in a perspiration, &c. The important point is, that a cold in the head is a genuine rhinitis, an inflammation of the lining membrane of the nose, which, when unchecked, is certain to produce a catarrhal condition—for catarrh is essentially a "cold" which nature is no longer able to "resolve" or throw off. Ely's Cream Balm has proved its superiority, and sufferers from cola in the head should resort to it before that common ailment becomes seated and ends in obstinate catarrh.

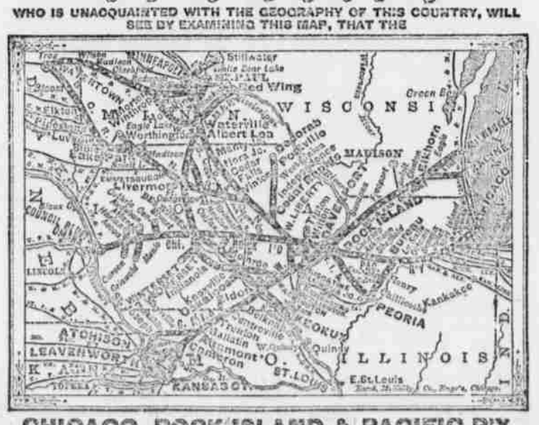
MAN
WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND & PACIFIC R'Y
By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.
The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.
THE GREAT ROCK ISLAND ROUTE
Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. Its block system, for the prevention of accidents, is the safest, most approved and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.
ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and RECLINING CHAIR CARS, elegant DINING CARS providing excellent meals, and—between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.
THE FAMOUS ALBERT LEA ROUTE
Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds, of Iowa and Minnesota. The rich wheat fields and grazing lands of Interior Dakota are reached via Watertown.
A short desirable route, via Sioux and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.
All classes of patrons, especially families, ladies and children, receive from officials and employees of Rock Island trains protection, respectful courtesy and kindly attention.

OF INTEREST TO FARMERS.

War Against Insects.
From the American Agriculturist
Whoever undertakes to grow house plants enlists for a war against a dry atmosphere, dust and insects, and the greatest of these is insects. The most injurious insects are not those large enough to be removed by hand, but the minute plant-lice or Aphides, called by the gardener Green fly. No sooner does a new and tender shoot, two or three inches long, push forth, than it is beset all over, round and round, with these innocent-looking insects, as close together as they can stand, each with its little snout (proboscis, if you like it better), stuck into the tender shoot, and all sucking away for dear life. The insects grow, but the shoot does not. Tobacco in some form—dust, tea or smoke—is sure death to these little creatures. Smoke is best, as it is most penetrating, or "sarchin," as the old fashioned folks say. In the greenhouse this is the most readily applied from of tobacco, while in the window garden the most difficult. Still, if one is really fond of plants, and smoking is a condition of success, ways and means will be found to apply it. If one can have the use of a closet, or the exclusive use of the bath-room for over night, smoking becomes easy. In smoking, we wish to burn tobacco, and do not wish to burn the house. It will be well to make a shallow box or tray, say four feet square, with sides four or five inches high; fill this with coal ashes, and it will make a hearth upon which a fire may be built with safety. A handful of pine kindlings is placed in the middle of this hearth; when fairly ablaze, a lot of damp tobacco stems are laid upon this fire, and the operator should retire and close the door behind him. Of course, it is supposed that the plants have been removed from the window to the bath-room before this smoking is given.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to relief in all Throat, Lungs and Chest affections.

Protecting Young Trees from Rabbits.

Not the least of the enemies of our young orchard trees is the rabbit, and we fear he will be such as long as our Osage Orange hedges remain. The rabbit will not injure the trees in summer, when he has an abundance of succulent food; but in winter the tender bark is to him a dainty that he will partake of if it is not made distasteful to him or he is not frightened away. To frighten him from the trees is not easy. We have tried effectually the plan of tying white cloths around the tree, and found to our sorrow that the rabbit soon ceased to fear them. Making the snow into a solid mound about the tree will keep away mice but not rabbits, though it is often said it would. The rabbits will mount the mound and nibble away. Besides, we don't have snow half the time during the winter. The best way is to make the bark distasteful to the rabbit. He likes neither blood, nor grease, nor the oder of flesh. Hence, when you butcher, take the waste parts of the animals, and with these parts rub the trunks as far up as the rabbit can reach. The rabbits never nibble a tree so treated, while the grease or blood remains.

Everybody's companion is nobody's friend, but Red Star Cough Cure is everybody's friend. Prof. Grothe, of the Brooklyn Board of Health, endorses it as prompt, safe, and sure. Price, Twenty-five cents a bottle.

Feeding Mixed Feed.

There are two cardinal principles in relation to mixed feed; first, that mixed feeds are better than plain; second, that all the elements of the mixture should be fed each day, instead of one element for one day or one week, and another for another day or week. Thus, for instance, the experiments at Rothamstead, England, showed that eight pound of peas, or six pounds of oil-cake meal, would make a pound of live weight; while, of peas and oil-cake meal mixed, four and one-half pounds would suffice. It is as an element of mixed feed that roots attain their greatest value. Thus, in a great majority of cases, it will be found that a sheep receiving three pounds of bright wheat straw, and six pounds of turnips per day, will increase as much in weight, or keep in as good conditon, as another with three pounds of the best timothy hay; while the former will cost less.
It has been ascertained that to keep a sheep in good thriving condition, fifteen pounds of perfectly dry feed (of average good quality), is required per week for each one hundred pounds of live weight. But since hay and grain, in their ordinary condition, contain about fourteen per cent. of warter, from eighteen to twenty pounds per week will be necessary, or about three pounds per day. To facilitate digestion and prevent constipation, it would be well if an exuivalent of this amount of nutriment could be expanded in bulk, so as to weigh seven or eight pounds.

Men, such as U. S. Senator Voorhees, of Indiana, are loud in their praise of St. Jacobs Oil as an instantaneous cure for rheumatism, neuralgia, sciatica and other bodily pains.

Perfect Hair
Indicates a natural and healthy condition of the scalp, and of the glands through which nourishment is obtained. When, in consequence of age and disease, the hair becomes weak, thin, and gray, Ayer's Hair Vigor will strengthen it, restore its original color, promote its rapid and vigorous growth, and impart to it the lustre and freshness of youth.
I have used Ayer's Hair Vigor for a long time, and am convinced of its value. When I was 17 years of age my hair began to turn gray. I commenced using the Vigor, and was surprised at the good effects it produced. It not only restored the color to my hair, but so stimulated its growth, that I have now more hair than ever before.—J. W. Edwards, Coldwater, Miss.
