—A turn-stile—The fashion of wearing cuffs among impecunious dudes.

—The most indifferent person to the price of coal is the hired young lady of all work.

What is a cold in the head? Medical authorities say it is due to atmospheric germs, uneven clothing of the body, rapid cooling when in a perspiration, &c. The important point is, that a cold in the head is a genuine rhinitis, an inflammation of the lining membrane of the nose, which, when unchecked, is certain to produce a catarrhal condition—for catarrh is essentially a "cold" which nature is no longer able to "resolve" or throw off. Ely's Cream Balm has proved its superiority, and sufferers from cold in the head should resort to it before that common ailment becomes seated and ends in obstinate catarrh.

MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and transcontinental lines at the Missouri River, Kansas and Nebraska points, is the only true middle link in that transcontinental system which invites and facilitates travel and traffic in all the directions between the Atlantic and Pacific.

Its local lines reach from Chicago include Chicago, Joliet, Ottawa, La Salle, Peru, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Parkersburg, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Center and Council Bluffs, in Iowa; Cameron, Plattsburg, St. Joseph, Concordia and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. No coaling stops to permit as human skill can make it. It has all the safety appliances that intelligent genius has invented and experience suggested. Its equipment is unsurpassed and unsurpassable. Its passenger accommodations—its dining stations, its unexcelled Pullman Palace Sleeping Cars, its Reclining Chair Cars—are the best known to the West—unsurpassed in the world.

Its Missouri River connections at the Missouri River consist of commodious, substantial bridges, over which all trains pass, avoiding the annoyance, delay and danger of ferriage. Its Kansas City connections are the Union Depot, Kansas City, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque hunting and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of Dakota are reached via Watertown. A short, desirable route, via Seneca and Kankakee, offers superior inducements to travellers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

OF INTEREST TO FARMERS.

A bottle of Red Star Cough Cure made a thorough and permanent cure of a cold so severe that I could not talk, says Mr. J. P. Roach, assistant superintendent New York Sleeping Car Company.

In the Kitchen Garden.

The result of the application of concentrated manures is quite as apparent upon the market garden, as upon the wheat field.

If you have not saved a supply of seed, procure the best the market affords. Home grown seed, in many cases, will be found quite as satisfactory.

It is not too soon to make the frames of the hot beds and get everything ready. Save the manure for that purpose, which should be fresh and free from coarse litter.

Make your plans now for a good kitchen garden next season. If you cannot grow everything, grow what suits your soil and climate, and the best of these as well as you can.

In the vicinity of all large cities market gardening is the most remunerative use to which farmers can put their acres. But while supplying the city with vegetables do not forget that the city has a large amount of refuse matter which should be returned to your farms as fertilizers.

Sweet corn often yield $100 to $150 or even $200 per acre, and being easily produced is fairly profitable on farms within fifteen miles of a good market. It will not bear transportation well for long distances, coming as it does at the hottest season of the year and heating readily in the barrels.

It is an excellent practice to put a spoonful of good phosphate in the hill when planting sweet corn, well mixed with the soil, or if the seed is put in by machine to sow a little along the rows after the seed is in. This will give the young corn a good start, which is important, especially with the early crop.

Every garden ought to have a few filbert bushes. If the fence corners and hedges must have something growing in them, the filbert is as good as anything. As to varieties the Cosford is an improved kind of the English. It very productive, bearing a large nut with thin shell and a kernel of excellent flavor. The Coburg bears a large nut, and it is an abundant bearer. The Dwarf Prolific is perhaps as beautiful as any, though the nut is rather small.

To produce good sweet corn early requires a dry, sandy loam with southern slope: the land, if stubble, should be plowed and then rolled and manured broad cast with six or eight cords of stable manure per acre, and then plowed again so as to turn under the manure. If the land is greensward it will answer well to spread half the manure on the sod before plowing and then spread the balance, if fine, on the plowed land to be harrowed in with a disk harrow.

In order to avoid the vexation and loss from a failure of seed to germinate, it is well to test a sample of each kind of seed that is to be sown, for the appearance of seeds is not a correct indication of their value. They may look as though they were perfectly sound, yet by age, or exposure to heat or moisture, they may have lost their vitality. Many seeds are injured by some mistake in drying or by being stored in an improper place. Therefore it is always best to try a sample before the seeds are sown.

—No article of liquid nature, says an exchange, possesses more manurial properties than soap-suds, and on this account it should never be thrown away. It contains the food of plants in a state of solution, and therefore is prepared to act at once and with energy. By mixing it with soap-suds, chip manure, muck, etc., and allowing the whole to ferment an excellent manure for field and garden crops will be obtained. In a liquid state it is a valuable manure for grape vines and all kinds of fruit trees, as well as for vegetables and flowers.

Hon. M. A. Foran, of Ohio, member of House of Representatives, writes, that St. Jacobs Oil relieved him of acute bodily pains.

Are you made miserable by indigestion, constipation, dizziness, loss of appetite, yellow skin? Shiloh's Vitalizeris a positive cure. Sold at Dr. Horns' and Biery's drug stores.

Facts for Farmers.

Warming the drinking water for milch cows says in the winter.

Leaves make a cheap and convenient bedding much liked by pigs.

It is not the largest hog that pays, but the one that makes the largest quantity of pork in the shortest time and on the smallest quantity of food.

A good way to keep cellars and rooms free from mildew is to close them tight and burn sulphur in them, not opening the doors and windows for an hour or two.

Many cider makers affirm that cider made in December is better and keeps in good drinking condition longer than when made earlier in the season.

Dr. William Mitchell, of Ohio, prefers clay floors for his houses, after having tried all other kinds.

Pounded oyster shells, clam shells or ground bone are among the best materials for furnishing lime to fowls.

Experiments at the Maine agricultural station have demonstrated that about 8 per cent. more of the organic matter of ground corn is digested than of the whole grain.

In training young horses much time in the heavy work of a farm may be saved by the cultivation of a good walking gait.

Every farmer should get at least one first class family weekly newspaper with the events of the week epitomized, interesting New York letters, Washington news and gossip, intersting letters from the State Capital during the sessions of the Legislature, editorial comment, spicy and crisp, marriages and deaths, an interesting department of especial interest to farmers and all engaged in agriculture, also, spicy correspondence from the various towns and villages in the county. The CARBON ADVOCATE presents the above features in issue. The cheapest, largest and best weekly paper in the Lehigh Valley. $1.00 a year. Subscribe for it.

Greatly Excited.

Not a few of the citizens of Lehighton have been greatly excited over the astounding facts, that several of their friends who had been pronounced incurable and beyond all hope—suffering with that dreaded monster consumption—have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively cure all throat and lung diseases, coughs, colds, asthma and bronchitis.

A Creaking Hinge

Is dry and needs lard, until it is oiled, and a wheel it moves easily. When the joints, or hinges, of the body are stiffened and inflamed by rheumatism, they cannot be moved without causing the most excruciating pains. Ayer's Sarsaparilla, by its action on the blood, relieves this condition, and restores the joints to good working order.

Ayer's Sarsaparilla has effected, in our city, many most remarkable cures, in cases which baffled the efforts of the most experienced physicians. Were it necessary, I could give the names of many individuals who have been cured by taking this medicine. In my case it has worked wonders, relieving me of

Rheumatism,

after being troubled with it for years. In this, and all other diseases arising from impure blood, there is no remedy with which I am acquainted, that affords such relief as Ayer's Sarsaparilla.—R. H. Lawrence, M. D., Baltimore, Md.

Ayer's Sarsaparilla cured me of Gout and Rheumatism, when nothing else would. It has eradicated every trace of disease from my system.—R. H. Short, Manager Hotel Belmont, Lowell, Mass.

I was, during many months, a sufferer from chronic Rheumatism. The disease affected me generally, in spite of all the remedies I could find, until I commenced using Ayer's Sarsaparilla. I took several bottles of this preparation, and was speedily restored to health.—J. Fream, Independence, Va.
