TLAIN FACTS

Already the weighty document published at Manch Chunk, by the Gillespie corps, is beginning to show up in its true color. An abortion upon the laboring class by entering into the patent outside combination, which is the means of keeping out of emplayment over three thousand practical printers, who as a result must needs enter the army of "horrible tramps," which by the way, is an article for whom the pubculiar affinity. And it is also a means of majority of the people of Hensel's rather keeping down the wages of those who are members of the craft. In a recent listic that speculative sample of hypocracy cringjugly cries that the "ADVOCATE Indulges Following a false policy, it attempts to make up what it lacks in substantial clements by the enthusiastic utterances of "God save the poor laborer." The Anvo-CATE has always been a THUE exponent of the rights of the people, the clique and tool of no man or party, and its present high standard for truth and fidelity to the best interests of the people has been reached by honesty and sincerity of purpose and not by flaunting the flag or motto of hypoeracy and deceit. As the ADVOCATE has been in the past, so it will prove to be in the future: with "Lave AND LET Live" as a criterion of its purpose, it will conclume to be the friend and exponent of the rights of a free and equal people. That our course in journalism is satisfactory to the people, a circulation of over a thousand testifies more elaborately than words. We might add in conclusion, that our circula tion is rapidly increasing, which makes the ADVOCATE the best advertising medium in Carbon county.
