OF INTEREST TO FARMERS.

Remember This.

You can have sale bills printed at this office while you wait.

We do all kinds of plain and fancy job work—letter heads, note heads, receipts, &c., put up in tablet style if desired.

Our circulation is rapidly increasing—everybody reads the ADVOCATE.

A leading citizen of Hagerstown, Md., Mr. George W. Harris, had suffered for some time with facial neuralgia and toothache, when he tried St. Jacobs Oil. He says: 'It gave me instantaneous relief, and I consider it a wonderful remedy."

Sprinkling Eggs in the Nest

The practice of sprinkling eggs in the nest is one that should be discarded. It is usually done just before the chicks are due to come out, and it often kills them in the shell. Nature provides the eggs with all the moisture required, and when we undertake to moisten the eggs for the hen we make it very disagreeable for her, and do more harm than good. If eggs are sprinkled the water evaporates, and does not enter the shell, for there is no vacum in the egg. Besides that, even should moisture be required, it is a continuous requisite and not a temporary one. The moisture from sprinkling does not remain, and therefore fails to accomplish any good results. The hen sits very closely on the eggs after she hears the chicks, and does not allow either dampness or a change of temperature to occur. To show what moisture will do, if we take two watch glasses, fill one with water, and cover the water with the other glass, then pour ether over them, the water will freeze in the glasses if the ether be set on fire, thus literally forming ice in the midst of a flame. Hence when eggs are sprinkled, the evaporation is very rapid, especially if the eggs are warm and the water tepid, which causes a loss of heat. We cannot discern it by observation, but the chill to the chick in the egg is very severe and often kills it.

Greatly Excited

Not a few of the citizens of Lehighton have recently become greatly excited over the astounding facts, that several of their friends who had been pronounced by their physicians as incurable and beyond all hope—suffering with that dreaded monster Consumption—have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively cure all throat, and lungs deases, Coughs, Colds, Asthma and Bronchitis.

Spring Farm Cleaning.

When the wife cleans the house, let the the husband clean the farm. If vegetable matter is left about the yard, its rapid decay during the damp, warm weather of spring and summer, will poison the air and affect the health of the family. If left about the barn, lots and fields, it will have a like influence on the farm animals. Hogs are doubly liable to be injured, for they not only breathe the fouler air, but nest in such litter. Farm cleaning will save loss from disease. The litter has great value as a fertilizer when properly applied. The intelligent use of this manure ensures better crops, and the farm is capable of a more through cultivation. And then how much appearances are improved. Make a bonfire of pieces of wood, brush, stumps, etc., not fit for fuel, and give the charcoal to the swine and the ashes to the fruit trees. Remember this work is not complete until those stumps and stones are removed which can be taken out with a reasonable amount of labor; until the trees about the house and in the orchard are pruned; until the old growth is taken from raspberries, gooseberries, currants, etc.; until the "underbrush" is cleared out of the wood-lot; until all the ditches are opened and pools are drained: in short, until the farm is clean and neat. Conveniently enough, nearly all, or all of this work, can be done before the spring plowing is begun.

Prof. Chas. P. Williams, Ph. D., of Philadelphia, says there is neither morphia, opium nor minerals in Red Star Cough Cure. Price, twenty-five cents a bottle.

—Rhode Island is a small state, and yet it contains 11,000 more women than men.

Milk Tests.

The only system yet suggested which bids fair to be of practicable application in creameries, for the frequent or even daily testing of milk brought in by many producers, and for the daily testing of the milk of each cow of a herd, if this be disired, is that by means of an oil-test churn. This apparatus consists of many glas tubes of the same size, into each of an equal quantity of milk is placed, filling the tubes half to two-thirds full. The tubes are set upright for the cream to rise, then they stand at a temperature of sixty-five degrees or over, until incipient souring comes on, when the cream is supposed to be "ripe," or fit for churning. Then all the tubes, or, as we may now call them, little churns, are laid upon their sides or fastened in trames, and violently shaken in a machine made for the purpose, until it is evident that all the cream has been churned into butter. This done, heated to about 140 degrees, the butter melts to a limpid oil, which, upon cooling—the tubes standing perfectly upright—may be easily measured, and will show with considerable accuracy the relative amount of butter in the differen samples. It is clear that by this process the milk of one day can be reported upon one or two days thereafter, and as only a very small quantity of milk is required, no loss can be reckoned from this cause. Only a double or triple set of tubes is needed to test the milk of every producer every day. With skill, attained by practice, even with the rather crude apparatus which has been used, quite satisfactory results have been secured. The oil-test churn, now in its infancy, promises to be an exceedingly valuable aid to breeders and cow-keepers, as well as to those who buy the milk and cream, in enabling them to determine the the amount of fat, the most valuable constituent of milk, in different samples.

How to cure a Kicking cow.

To cure a cow of kicking, first, last and all the time, treat her gently. Speak gently. If this fails, after a thorough trial, draw a little chain around her, just foward of the bag and back of the points of her hips, snugly, calmly addressing her with soothing words. If she does not yield, draw a few links tighter. You can draw it so tight that she cannot get one foot six inches from the floor, and she will surely yield.

Handle a hog properly and it will prove one of the most profitable animals on the farm.

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only through daily link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Brighton, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and rational—its elegance and excellence, the luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortably DAY COACHES, magnificent PULLMAN PALACE PARLORS and SLEEPING CARS, elegant DINING CARS providing excellent meals, and—between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of Inter or Dakota are reached via Watertown.

A short desirable route, via Geneseo and Kewanee, offers superior inducements to travelers between Cleveland, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

AS WE CLIP HUMOROSITIES.

—The grocer never sings, "My way is dark and lonely." His weigh, as a rule, is light.

—He that is afraid of solemn things has probably solemn reasons to be afraid of them.

—Great occasions for serving God present themselves but seldom, but little ones frequently.

—Isaac Barnes, an eccentric Bostonian, was lately urged by his Baptist wife to subscribe for a new church. He agreed to subscribe $5000 on condition that all baptisms should take place in hot water.

—The costumes of Chang Yen Hoon, the Chinese Minister at Washington, are chiefly of white brocades and delicate pinks and lavenders. His predecessors wore colors less gay.

A Genial Restorative.

Hostetter's Stomach Bitters are emphatically a genial restorative. The changes which this great botanic remedy produces in the disordered organization are always agreeable, though surely progressive, never abrupt and violent. On this account it is admirably adapted to persons of delicate constitution and weak nerves, to whom the powerful mineral drugs are positively injurious. That it initiates those processes which result in the re-establishment of healthful vigor is conspicuously shown in case where it is taken to correct some painful cause of debility, indigestion, coupled, as it usually is, with biliousness and constipation. Thorough digestion, regular evacuation and abundant secretion, are results which promptly and invariably attend its systematic use. It is, besides, the best protective against malaria, and a first rate diuretic.

—In Germany women go from house to house dusting furniture and tending to drawing room flowers and plants. It is a regular business.

—It is stated that Italy has declared its seven universities open to women. Norway, Switzerland, Sweden and Demark have taken similar action.

—Mrs. Frances Hegison Burnett gives the following directions for writing a novel: "You must have pen, ink and paper. Use the first with brains, the second with imagination and the third with generosity." Too many writers this advice will be discouraging.

Ought to be Known by All!

The wonderfully quick and certain relief afforded by Fontaine's Cure in cases of cold, cough, croup, bronchitis and asthma. It will cure a cold in 12 minutes! The first dose will give relief. It will cure croup in as many minutes. A child's life may be saved by its timely use. It is a radical cure for Asthma. It should always be in the house, ready for an emergency. Can you, or any person afford to take a risk, when you can absolutely guard against it? Whooping-cough, consumption and bronchitis will yield to the medicine when others have failed. Sold at Dr. C. T. Horn's drug store.

—Slander like mud, dries and falls off.

—Honesty is the preserver of good deeds and the avenger of bad.

—Wisdom listens in confidence, but is seldom confidential in return.

—To have what we want is riches, but to be able to do without is power.

—Curses are like proclamations; they return to the place from which they came.

—General Arthur on one occasion said to Chauncey M. Depew: "I have a right to be faithful to my friends; but when it comes to a question between my duty to them and my duty to the country, my friends must stand back."

Typhoid, Scarlet and Yellow Fevers, Measles, Diphtheria, Small-pox, Cholera, etc.

Darbys Prophylactic Fluid will destroy the infection of all fevers and all contagious diseases. Will keep the atmosphere of any sick-room pure and wholesome, absorbing and destroying unhealthy effluvia and contagion. Will neutralize any bad smell whatever, not by disguising it, but by destroying it. Use Darbys Prophylactic Fluid in every sick-room.

—It is said that a budget of unpublished Longfellow letters has been found in Boston. They are to be published at an early date.

—For twenty years ex-Governor Curtin's right eye has been sightless, but a surgical operation has now restored its vision.

—Queen Victoria intends to purchase certain of the French crown jewels, soon to be sold in Paris, at least, so it has been said.

—The bishop of London is the greatest drinker of tea that has been known in England since the death, some years ago, of Dr. Johnson.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will, by its own action, reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past few years obliges us to admit that only one remedy has completely met these conditions and that is Ely's Cream Balm. This safe and pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms quickly yield to it.

—A lady in showing a visitor the family portraits in a picture gallery. "That officer there in the uniform," she says, "was my great-great-grandfather. He was as brave as a lion, but one of the most unfortunate of men. He never fought a battle in which he did not have an arm or leg carried away." Then she adds, proudly, "He took part in twenty-four engagements."

Glad tidings. Relief and cure of throat and lung disease. Fontaine's Cure is guaranteed to cure a cold in 12 hours. Sold by C. T. Horn, Druggist.

—It is creditable to human nature, observes John G. Whittier, and its unperverted instincts that stories and anecdotes of reciprocal kindness and affection between men and animals are always listened to with interest and approval.

S. W. Peach, Mansfield, Pa., says "I have used Dr. Seth Arnold's Cough Killer and it always relieves my cold."

Mothers, always use Dr. Seth Arnold's Soothing and Quieting Cordial for children. A mild safe tonic. 25c.

—A colored clergyman in a Southern town prayed the other day that the indelicate might be made delicate, the intemperate temperate, and the industrious dustrous.

Man, Woman or Child attacked with Bright's Disease, Diabetes, Gravel or Urinary Complaints should use the best weapon—Dr. Kilmer's Swamp-Root, Kidney, Liver and Bladder Cure. It goes right to the spot. Price 20c, $1.00.

—The deacon's wife wanted to jot down the text, and, leaning over to her scapegrace nephew, she whispered: "Have you got any cards about you?" "You can't play in church," was the solemn, reproving answer, and the good woman was so flustered that she forgot all about her text.

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine.

—There are 113 farmers in the Connecticut legislature.

—H. McK. Twombly, the son-in-law of Vanderbilt, has purchased in London £200,000 worth of old furniture that at one time belonged to Marie Antoinette, at least so 'tis said.

—Mrs. Secretary Whitney's new baby has been named by Mrs. Cleveland. Francis Cleveland Whitney is the name which has been inflicted on the poor little innocent.
