PURE UNFERMENTED GRAPE JUICE!

On account of the superior excellence of this article I am again prompted to bring it before the public. It is taken with relish by the sick and the well when all other foods, solid or liquid, are loathed. The composition of Grape Juice is nearer to that of Milk than is that of any other organic fluid. It will build up the. nervous system, enrich the blood and contribute in every way to, the restoration of perfect health. The best element in the food is that the sick relish it, long for it, drink it with pronounced gusto, and in short, demonstrate that it meets the specific want of the organism in debilitated conditions. Why, this excellence? asks one. Everybody knows what Grape Juice is; so does everybody know the Castor Oil Plant and many other Herbs and Roots and Fruits, but where is there a more excellent purgative than Castor. Oil which, in spite of the small boy's verdict, is super-exc. lient, but this Liquid Food is pleasant to take as well as effective. The article we have is prepared without boiling and without any chemicles or other substance to prevent fermentation. On this account it is entitled to the first rank as a Liquid Food. It is absolutely clean and pure, made from "bagged" grapes. The rrocess of "bagging" grapes should be better known than it is because by it several important results are attained. As soon as the fruit is set a manilla paper bag is slipped over each well formed cluster and fastened above it with iron pins. Thus protected, the ruit does not rot, is kept free from the spores and the infusioria floating in the atmosphere, and also is protected from the excrement of the thrip and other insects which often insfest vineyards, rendering the fruit unclean and the juice unfit for use. The grapes so protected come to a greater perfection, and when gathered are full bodied and have in perfection that rich purple bloom which is the crowning glory of this noble fruit. It is from such Royal Fruit that our Pure Unfermented Grape Juice is made, of a deep, rich garnet color verging on nurple-a product of nature. Its "boquet" is rich and fruity, reminding one of the "abundance of autumn" and its flavor is excellentissimus. There are several other brands on the market and though we have examined a good many of them, we have found none of them fit to use. Some are held from fermentation by salicylio acid, some 25 to 40 grains used to a gallon of juice; some are heavily charged with sulphurous acid, and others develop a metallic taste in the mouth after drinking, showing that the juice has been in contact with a metal surface of some sort, and is in consequence unfit to use as well as unpleasant to the taste. The Pure Unfermented Grape Juica is specially prepared for the Homeopathic Pharmacy which has the exclusive agency and from whom we have secured the agency, for Carbon county. N. B. LEBER, M. D. Miss Emma Whitehead, can save money by having your clothing made by Fourth Building above Snyder's H. H. PETERS, The Tailor, EXCHANGE HOTEL BUILDING, LEHIGHTON, PA

The importance of purifying the blood can

not be overestimated, for without pure blood you cannot enjoy good health. At this neason nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we sak you to try Hood's Peculiar Saraaparilla. It strengthens and builds up the system. ereates an appetite, and tones the digustion while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Barsaparilla pecul- To Itself for curative powers. No To Itself other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar dedicine, and is worthy your confidence. Hood's Saraaparilla is sold by all druggists
