Farm and Garden Notes-

-Insect powder is advocated as a protection against bugs on cucumber and melon vines.

-For bark lice N. J. Shepherd recommends a thorough washing with soft soap made into suds. -Ditches should not have a fall of more

than one food in 100, or thure will be danger of washing, -As the warm weather advances so the tendency of fawls to breed vernils in their nests increases.

-While horses are shedding their coats they should be well fed and not overworked. It is important to have the new coat on befors the active far work beging, as the

chang.ug process is debilitating.
