RUP URE

The undersigned having been re-stored to health by simple means, after suffering for several years with a severe lung affoction, and that dread disease Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) acopy of the preseription used, which they will find a sure cure for Consumption, Asthma, Catarrh, Bronchitis and all throat and lung Maladias. He hopes all sufferers will try his Remody, as it will cost them nothing and may prove a blessing. Those de siring the prescription, will please ad dress, Rirv, Epward A. WILSON, Williamsburg, Kings Co., New York.

dealing men need apply. Address, Enw. O. GRAHAM, Nurseryman, Rochester, N.

-Potatoes encouraged by suitable cultiation to vigorous growth are far less liable o injury from the destructive beetle than If left to struggle along unaided.

-Turnips may be sown at any time up o the middle of the month, and will grow arge enough for the market, being much setter for table use than those sown in the menth of June.

-Many a good crop is sometimes almost ined by neglecting to harvest it at the proper time. Corn fodder becomes dry and weather beaten if allowed to remain too long in the field. -The very first thing to do to enable a

farmer to grow wheat successfully is to adopt a system of rotation of crops, If the farm consists of 120 acres of plow land and a six years' rotation is adopted, there will be only 20 across of whoat each year, and wheat will not follow wheat on the same land oftener than once in six years.

Meeting With Much Success.

It is a pleasure for us to note that Arner & Son, of New Mahoning, manufacturers of pure bone super-phosphates and bone meal are meeting with unprecedented success in the sale of their justly celebrated cands of fertilizers. Guaranteed to be free from dirt, sand, muck, ashes, syster shells, ground lime-store or any adulteration whatever, the farmers of Fennsylvnia have placed in them a confidence which grows stronger year after year as they har-

grows stronger year after year as they increase west their largely increased crops. The in-gredients of Arner a Son's phosphates are nitrogen of summonla, phosphates are ahead of all others. By close observation from year to year it has been discorrered what the plants most require to produce the best results at lowest constilie cost-consequently the manufacture of a obos-phate the bass of which is animal bones mixed with pure chemicals only. Parmers will do well to try Arner & Son's phose-phates; they are guaranteed to produce the best results.
