The Democratic State convention will not err if it nominates Mr. Rap sher. His election would be a victory by the masses over oppression and wrong that would put a stop to the hypocritical decisions of corporation lawyers and judges who work up big reputations and secure big fees because they have won fame by wringing from the poor their just rights and privi leges and grinding them to the earth by the heel of oppression. It has come to pass in this country, by virtue of the evils of monopoly, that the poor, the creators of wealth, are in many instances, but little better off. than the serfs of Russia before their emancipation, and all this is a country where there is no littled nobility, no crowned monarchs, but where "all men are created free and count." It is a big joke, and the poor, who live and die working out a miserable existence, get the brunt of it, and all on account of electing to power such men as flagrantly disregard the Interests of the masses, who are the toilers, the wage earnbe framed and enforced by our Judges, The importance, then of electing to such sher need not be questioned.
