Recognizing the fact that no good authentic portraits, from late photographs, of aspirants for the presidency have been published, we will issue in the same style as the larger engravings above, portraits of all the aspirants for the presidency. This series will include not only the prominent men, but the so-called "dark horses" will also receive our attention.

Electrotypes of these portraits, all of them masterpieces of the engravers' art, we offer to our subscribers at \$1.25 each. We will either take your order for the presidential aspirants, ceasing the service when the nominees are announced, or will continue to send our regular single column portraits of "Men of Moment" for any length of time you may specify and make the following

**SPECIAL OFFER.** We will send you the Presidential Aspirants until the nominees are announced at \$1.25 each, and then continue with the single column "Men of Moment" portraits at 60 cents each.

Remember we can send you from 1 to 6 new "Men of Moment" each week. Biographical sketch goes with each. Send for our catalogue list of names.
