Office of Rochester Brewing Co.,

ROCHESTER, N. Y., May 12, 1884. It having been for some time urged as an argument against the

use of malt liquors, that they were unfit for use by reason of adulterations, we beg to state that the Lager Beer manufactured by us is a Pure, Healthful, Unadulterated article.

For the Invalid and the Nursing Mother as well as for those who simply use it as a beverage, it is a light and nourishing stimulant. Lager Beer has accomplished much for the cause of temperance, in weaning many from the use of the stronger drinks, and thousands all over the land cheerfully testify to its wonderful effects in building up the Enfeebled Constitution.

An analysis of our Beer has been made by Professor Lattimore of the Rochester University, a gentleman whose name is sufficient guarantee of the accuracy of any statement he may make, Wc can also produce the affidavit of Mr. Frederick Hodecker, our head brewer, which must certainly set at rest all doubts that might exist in the mind of any person.

Furthermore, we will pay \$1000 to any one proving that our statements and claims are not entirely true. Very Respectfully,

The Rochester Brewing Co.

A CHENTER CONTROL

It is made entirely of cast-iron bolted together firmly: is ad mirably suited to put on the roof of a house as a chimney, being both ornamental and useful. By its use you avoid the risk of falling bricks tumbling on your head or breaking the roof, of leakage around the chimney and of having a house minus a chimney after every little storm. The price is no more than it will cost to put on a brick one and it will out-wear half a dozen of the.
