

The Carbon Advocate

LEHIGHTON, PA. SATURDAY, DECEMBER 24, 1887.

ENTERED AT THE LEHIGHTON POST-OFFICE AS SECOND-CLASS MAIL MATTER.

The Federation of Labor

The new Federation of Labor threatens to overthrow General Master Workman T. V. Powderly, and in fact, the entire organization of the Knights of Labor. At a meeting of the former held in Baltimore last week it was unanimously concluded to observe the strictest economy in the dispensation of matters appertaining directly to the order. Resolutions were passed favoring eight hours as a working day and condemning strikes as carried on in the past.

The surplus in the Treasury is causing a great deal of trouble both to President Cleveland and the whole Democratic party. There are lots of ways to dispose of it to the benefit of the country, ever our lawmakers so disposed.—Tri-Weekly Record.

A Common Error

The surplus in the Treasury is causing a great deal of trouble both to President Cleveland and the whole Democratic party. There are lots of ways to dispose of it to the benefit of the country, ever our lawmakers so disposed.—Tri-Weekly Record.

Our Mahanoy City contemporary falls

into an error common among those who see only through the eyes of blighted partyism. It is not a mere question of disposing of the surplus that agitates the minds of our statesmen, both Republican and Democratic, but it is the more vital and important question of preventing the storing away of millions of dollars of the people's money annually, by a fair reduction of the unwise, heavy and onerous tariff rates which now bear so heavily on the common people.

"Stolid, Stupid, Ignorant Man."

Cleveland's school-essay, devoted entirely to an attack on American labor, needs not alarm any intelligent and well-informed citizen of the United States. It is plainly the work of a stolid, stupid, ignorant man, who has for the first time turned his bleared intellect upon a subject that has for over a century occupied the attention of able statesmen, and it seems to grasp only the weakest points of the subject, it must be admitted that he strikes directly at the one thing that more than any other and all others has developed the United States as no other country has been developed.—Gazette.

A Merry Christmas to You.

Before the ADVOCATE reaches many of its readers the good cheer of "a merry Christmas" will be echoed and re-echoed throughout the civilized world. In thousands of churches in city, town and hamlet, that beautiful story of "the babe born in Bethlehem" will have found utterance, while the "peace on earth, good will to all men" will fill the hearts of all alike with thanksgiving for the many blessings of an all-wise and beneficent God has bestowed upon us in season and out of season. And in this period of joy and festivity, we who have a plenty, should not fail to extend to the poor and needy a portion of "our daily bread" that they too, may feel and understand that "God moves in a mysterious way his wonders to perform."

Republican Convention vs. Allentown.

Efforts are being made by influential Republicans in this section of the State to have the next Republican State Convention convene at Allentown—the Queen City of the Lehigh Valley. A circular, setting forth the various advantages, &c., has been sent to the Republican State Committee for consideration. Allentown is fully capable of entertaining so large a body of men as will undoubtedly be in attendance at the coming convention—numerous hotels, means unlimited accommodation, a large and commodious hall is at command also; the only thing that the city cannot promise is a Republican majority, but with the vote outside the ticket nominated would most likely pull through. The sentiment for holding the convention at Allentown is or is stilling mostly as it will not be surprising if that city secures the coveted prize.

The Strike Still continues.

Fifteen weeks, one hundred and five days, of the Lehigh coal strike have passed and the result is as uncertain now as it was fifteen weeks ago. Miners and operators are firm and found in their expressions to hold out. Thus far the whole Lehigh Valley has suffered more or less. Newspaper reports have it that the striking miners are well supported by contributions from the labor organizations of the entire commonwealth; on the other hand the operators deny this, and claim that but limited contributions have thus far been re-

Broadbrim's New York Letter.

SPECIAL TO THE CARBON ADVOCATE.

A point of surpassing interest is the Gallery of American Artists at Broadway and Twenty-third Street, though these galleries may always be visited with interest and instruction. It was here that the great Morgan collection was exhibited to the public, an exhibition that was a revelation to the great mass of our people of the wonderful possibilities of Art; and it is the pride and boast of Messrs. Sutton and Kirby, the gentlemen who have the honor of presenting the greatest picture ever obtained for a picture of similar size in the United States was secured by them, for Jules Breton's "Communicants at the Morgan sale. Here too was sold the magnificent Seney collection, when evil fortune overtook that enterprising financier, and later still, the Stearns collection, was passed under the hammer; a few of its chief treasures fortunately remaining in New York, as a gift to the people themselves. The particular exhibition under which the public rests to the American Art Association is, that it is distinctly the patron of American art; and it to-day our standards of art are higher than ever before.

It is not a mere question of disposing of the surplus that agitates the minds of our statesmen, both Republican and Democratic, but it is the more vital and important question of preventing the storing away of millions of dollars of the people's money annually, by a fair reduction of the unwise, heavy and onerous tariff rates which now bear so heavily on the common people.

OUR PHILADELPHIA LETTER.

It is with considerable pleasure that "Frank" presents the compliments of the season and best wishes to our friend who reads straight and is evidently the carping critic of the "Weatherly Astonisher." It is hoped that this good friend will not again be so easily aroused for some of the devilish eyes through the foliage, suggestive of evil thoughts. Warm with life and soul it is pure as the snow upon the mountain top.

OUR TABLE.

The opening of a splendid story for the young, by the famous showman, P. T. Barnum, appears this week in the columns of THE NEW YORK FAMILY STORY PAPER. The story describes the adventures of an American boy, whose name is "My Tricky Boy Tom," and who has been sent to sea in a vessel of the name of "The Flying Dutchman," and who has been the chosen one of a great power, and who has been the chosen one of a great power, and who has been the chosen one of a great power.
