

The Carbon Advocate

LEHIGHTON, PA. SATURDAY, FEBRUARY 11, 1888.

Special to the Carbon Advocate. Was it a plot? That is what we are now asking ourselves after reflecting on the resolutions of the dead "Why" chief who was hung last week.

A little over year ago New York was startled from its prosperity by the intelligence that Thomas Patrick Walsh of the Sixth Ward, otherwise known as "Fatty" by his intimates, had received at the hands of the retiring Mayor, the appointment of warden of the Tombs. If he had been appointed chaplain of Congress, or superintendent of the Young Men's Christian Association, or trustee of the Board of Foreign Missions, we would have accepted it without winking, but when it came to placing a man in charge of our criminals, who had been associated with them the greater portion of his life, it was a matter of grave consideration.

Fatty Walsh was raised in the Sixth Ward, which is the great criminal ward of the city. Whiskey was his business and at one time gambling his profession, for this he was indicted and, until a short time ago, these indictments were pigeon holed in the District Attorney's office. The man's whole life was unscrupulous and disreputable, but singularly enough, his claims to official preferment had been endorsed by no less a person than Abraham S. Hewitt, the present Mayor, and the endorsement of Mr. Hewitt went far to securing his confirmation. Now comes the singular feature of this appointment. James Finn had been warden of the Tombs for fifteen years, and Finn had, all things considered, conducted his department fairly and honestly, but without rhyme or reason Mr. Finn was summarily put out and Fatty Walsh was put in his place. At the time the change was made, Danny Driscoll was in the Tombs under sentence of death. Driscoll had been a power in the Sixth Ward, and he carried six leaden balls in his body, trophies which proclaimed his superiority over the common tough. On election day when his friend Fatty Walsh was running for Alderman, Danny put in his fine work with the bunnies of the lodging-houses on the Bowery, Chatham Square and Pell street, he marshalled the Whyos from Baxter street and the Five Points and Fatty Diver was sent to the wall. But in an evil hour Danny Driscoll came to grief and the law said that the gallows was his doom.

As long as James Finn was in charge there was little prospect of escape for Danny. Then came the appointment of Fatty Walsh. Why did Abraham S. Hewitt recommend him? Mr. Hewitt is an honest man, he has risen by his own personal effort from the very lowest estate known to our Republic. He is the son-in-law of the late Peter Cooper of blessed memory; the man who did not wait for death to summon him before he bestowed his fortune to bless humanity, but who realized the blessing of his work for twenty years before he died, and about whose name clusters and twines the holiest benediction. In all this great city no name so honored and so loved. Just before his death I have seen him drive down Broadway in his old worn buggy when it was crowded with vehicles, when ponderous omnibuses and huge drays turned into the gutter to give him the right of way as if he had been a king. A queer, quaint old figure he was, but no king on this earth ever received more loyal deference from the common people than he. Why did his son-in-law endorse Fatty Walsh? "That's politics," says Mr. Cregan, the County Democrat and Tammany Hall warden. The Sixth ward was an important factor in the fight. It was really the balance of power. Fatty Walsh demonstrated his power to carry the ward over Paddy Diver, but as a reward for his services he claimed the wardship of the Tombs. Why? That particular place of all others under the city government? His old friend and companion Danny Driscoll was there under sentence of death. Mr. Driscoll, though under sentence of death enjoyed many privileges not accorded to less distinguished prisoners. His wife carried a key to his cell in her pocket, and let herself in and out whenever she pleased; and when Fatty Walsh was installed, Danny Driscoll had hopes of more extended freedom than he had enjoyed under Warden Finn, instead of which the key to Danny's cell was taken away from his wife, and when he had almost succeeded in escaping he was detected and stopped, and shortly after he was discovered in an attempt to assassinate his old friend, and then came the exposure at the foot of the gallows, where he accuses Warden Walsh of the most unheard of barbarity. No one supposes that his treatment was at all different from that of any other prisoner under sentence of death. The question now is, was the appointment of Fatty Walsh as warden of the Tombs made by the dead Whyo's influence, the consideration being that Danny was to be allowed to go away. Driscoll kept his part of the compact—old Fatty kept his—that's the question?

What's the use of giving warning to fools? Only a couple of weeks ago I gave the history of the green goods swindle, and this week it is Ashbury Hamilton Perkins of Lincoln county, South Carolina, a county commissioner and a church-member; he came on here to buy \$100 in counterfeit money with \$100 in greenbacks. The counterfeiters were so good that he intended showing them off to his unsuspecting neighbors, but instead of the counterfeit money he expected, he got nothing but four bundles of green paper, with a bill on the top of each bundle; besides this he got arrested and exposed as the meanest kind of a swindler, who was willing to rob his unsuspecting friends and after being kicked out of court with a rebuke from the judge, he goes back to South Carolina, a ruined man. But how about the green goods swindler? Oh! he's all right. He had on his person when captured just after he had swindled Mr. Ashbury Perkins \$802. Four hundred of this was Perkins money. It was all turned over to the property clerk of the police court. The swindler was discharged as it was not shown that he was dealing in counterfeit money, all he at once applied for \$402 of his money; and there was only \$400 in dispute, it was handed over to him, but when Farmer Perkins went for the other \$400, it was refused him on the ground that he must prove that it was the identical \$400 that he gave the swindler. This makes two of the green goods people that have slipped through the meshes of the law this week; in fact it seems to be, according to the latest legal interpretation, a very safe and profitable business, except when the operator gets a customer like the one Bill Davis got from Texas, who takes off the top of his head.

A very nice divorce case is now before the courts which involves a very funny question. Two years ago Fauny Harowitz was engaged to Leopold Pincus. Every-

A very nice divorce case is now before the courts which involves a very funny question. Two years ago Fauny Harowitz was engaged to Leopold Pincus. Every-

thing was got ready for the wedding, but when the hour arrived, the gallant Pincus was not to be found, and the guests were about to be disappointed. Nathan Geiger stepped forward and offered to act as proxy for the absent lover. Fanny was nothing loth, and Mr. Geiger answering for his friend Leopold Pincus, went through the wedding ceremony. His portion of it ended at the altar, and he went one way, and the new made bride went the other. After a time the traitor turned up and learning for the first time that he had been married over seven months, accepted the situation like a sensible man and set up housekeeping with his wife; but in a little time doubts arose as to whether Fanny was Mrs. Geiger or Mrs. Pincus, and the decisions of the lawbooks were largely in favor of Geiger. If the meantime, however, an heir had been born to the house of Pincus, and Geiger even if forced to take Fanny did not care about shouldering any responsibility in which he had no collateral interest. The courts are now asked to annul the proxy marriage with Geiger, and as the evidence is tangible that Fanny is now living with Pincus, there is no doubt that Geiger could get a divorce if he wanted it, but he has not applied for one, and Fanny cannot get a divorce unless she can show that Geiger has misbehaved himself, which he does not appear to have done. How the courts will decide I don't know, but it is pretty evident that though proxy marriages may be a good thing for the feckless and Whiskies of Poland and Russia, they will not do for the atmosphere of New York, even though favored with Cavare, San-Front and Vodky.

The Hon. Allen Thornygate Rice favored us this week with an account of his meeting with the late Mike Cregan on the eve of the last election. We have always supposed that political success was unobtainable; Mr. Cregan proposed to make it a mathematical certainty. There are just as many Democrats and Republicans who are bound to vote their ticket as, and there is the floating vote that is in the market to be bought. Now, multiply that vote by five and put the money in the hands of a trustworthy person like myself and the thing done. Mr. Rice could stand it for regular election expenses, but when it came to buying the voters body and breeches that was more than he could stand. So Mr. Rice was elected to stay at home and General Spinola, a Tammany brave, warns the seat at Washington.

OUR PHILADELPHIA LETTER

PHILADELPHIA Pa., Feb. 8, '88. It is asserted that a blizzard hailing all the way from Louisiana will strike the Cleveland boom before the end of the week. Keep on the look out for it.

The Rev. Justus D. Fulton, from Brooklyn, N. Y., who some time ago started out to annihilate the Catholic church, under the caption, "Why priests should marry," lectured in Horticultural Hall to an audience of one thousand people one evening last week. The Rev. Fulton has undertaken a job which many a stronger man undertook before and failed. This man seems to be an incubus on the subject about which for years he has made so much fuss, yet has never accomplished anything. For any man to get up and declare that priests of the Catholic church as a representative body of teachers are immoral and unchaste, is to say the least, a bigoted lunatic. Fulton practically asserts this. A man who pretends to preach christian theology, as this bombast claims, should bear in mind, "Do to others as thou wouldst be done by," and not misrepresent a larger body from their own wickedness. It goes without saying that the purest, most self-sacrificing people on the earth, from a Christian standpoint are the priests and sisters connected with Catholic institutions and churches. This is an undoubted fact and then for a jesuit in sheep's clothing to grow furious thus is damnable indeed.

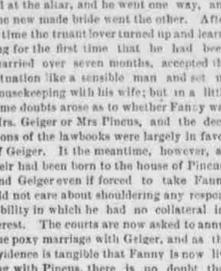

The handsomest fire-proof building ever erected in Philadelphia is the new Bullitt building completed last week. It is situated on South 4th street, and is owned by John C. Bullitt, A. J. Dresel, W. W. Kurta and Geo. F. Tyler. It is a building spacious and complete in its details. The purpose for which it is to be used is mainly banking. The architectural designs reflect great credit upon the designers.

John Joseph Cullen is the name of a young fellow who at nineteen years of age is a bigamist, having two wives. John Joseph was doing business, not at the old stand, but on a wholesale principle, that is, in the course of one week he married two young ladies, both of excellent reputation. Besides having two wives he was engaged to two other young ladies. These two no doubt would have tasted the sweets of matrimony if it had not been that wife No. 1 had this young "Brighton Youth" arrested for doing the thing too much. As anybody outside of a lunatic asylum might have been expected he got himself into trouble by being arrested and being put under bail for appearance at court, with a probability of conviction and as a consequence two years at "Cherry Hill." "Never be too hoggish."

In the U. S. Mint are employed a number of ladies closely related to some eminent and prominent men of our day and of the past. There is a Miss Cambles, sister of the most prominent member of the Philadelphia Stock Exchange; Miss Dougherty, sister to the famed and noted actor Daniel Dougherty; Miss Dallas, daughter of ex-vice president Geo. Dallas; Miss Gibbons, sister of Major-General Gibbons of the regular army and who so short a time ago delivered such a brilliant oration at the unveiling of the Meade monument in Fairmount Park. Such are only a few. It is evidence that necessity is not alone restricted to the poor and unknown, or perhaps these eminent relatives are in such straight-
