It having been for some time urged as an argument against the use of malt lignors, that they were unfit for use by reason of adulterations, we beg to state that the Lager Beer manufactured by us is a Pure, Healthful, Unadulterated article.

For the Invalid and the Nursing Mother as well as for those who simply use it as a beverage, it is a light and nourishing stim- with snow and ice in the morning. ulant. effects in building up the Enfeebled Constitution. An analysis of our Beer has been made by Professor Lattimore of the Rochester University, a gentleman whose name is sufficient guarantee of the accuracy of any statement he may make, We can also produce the affidavit of Mr. Frederick Hodecker, our head brewer, which must certainly set at rest all doubts that might

exist in the mind of any person. Furthermore, we will pay \$1000 to any one proving that our chatements and claims are not entirely true.

Choice of Dairy Farm. Some of the best fancy dairies are found near the large cities, upon light and inferior soils which are unfit for pastures and permanent meadows, but which are made to produce heavy crops of roots, fodder corn, clover, orchard grass, millet peas and oats, and other kinds of fodder; and which, by the aid of the practice of ensilage, are made to support, in many cases, one cow or more to each acre the year round.
