THE RATIONAL CONVERTION OF THE Democratic party convenes at St. Louis, Mr., on the 5th day of June, to put in nomination a president and vice president; the Republican convention will meet for the same purpose in Chicago, Ill., on the 10th of the same month. The Democratic standard bearer will be S. Grover Cleveland with Voorhees, Gray or Morrison as the vice presidential candidate. There are numerous aspirants in the ranks of our Republican neighbors; for instance, Sherman, of Ohio; Allison, of Iowa; DePew, of New York; Edmunds, of Vermont, and a dozen others. Capable, able and brilliant men all elements of tariff planks. The political contast promises to be the most hotly contested in the history of this country; boodle, force and intrigue will play important roles in the result.

THE MONEY REVERTING INTO THE BORough treasury from the new high license law will either allow of a considerable reduction in the tax rate or important street improvements. This has been a great week for the dogs.

Sometimes it is pictures, sometimes it is horses, but this dog show. Now it is not everybody who likes dogs.—Our Mayor dan't—yet he is fond of music, and Lady Gay Spanker says, "What music like the yelping of the bounds?" The lover of that sort of thing could get all he wanted of it at Madison when he was wanted to testify and he had all the books and papers with bim that might throw any light upon the scheme by which farmers are compelled to sell milk. trusts, from the pen of Hen. William Rapsher, which appeared in last week's issue of this journal, was well received by our and journal, was well received by our numerous readers, and particularly so the masses, whom monopolistic greed and corporative viciousness have succeeded in placing in a condition but little better than the serfs of Russia before their emancipation. The natural result of trusts, pools and all combines is the so-called "scum" of society, the wild and flery anarchistic tendency of the poorer classes, crime, misery and the poor house, finally; and yet in face of these very apparent evils and effects our political government tolerates the formation and existence of combines that make the rich richer and the poor poorer and creates deadly antagonisms to our free institutions. It is of vital importance that these pools and trusts be crushed out of existence. The political party that takes the initial step tanding to this purpose is the party for the people.
