EVERY YEAR.

BY ALBERT THEE. The spring has tons of brightness, Every year; The apr wen ghospilor whiteness, Nor autumn fromage thicken,

Evney year. It is growing darker, bolder, Every year, As the heart and soul grow older, Every year

As they once did, for we stoken

Or for eyes with passion glanding Love Is less and less entraneing, Every year. Of the loves and sorrows blended,

Every year; Of ties of friendship ended, Every year; Of the ties that still might bind me, Until Time to Death resigned me, My infirmities remind me.

Every year. Oh, how and to look before me.

Every year; While the clouds grow darker o'er me. Every year; When we see the blessoms faded, That to bloom we might have aided. And immortal parlands braided,

To the past go more dead faces. Every year; Came no new ones in their places, Every year; You can win no new affection, You have only recollection, Deeper serrow and dejection,

Thank God! No clouds are shifting, Every year; O'er the land to which we're drifting, Every year; No losses there will grieve us, Nor loving faces leave us, Nor death of friends bereave us,

A Strange Case.

During the many weeks that Early and Sherman faced each other along the Opequan, says 'Ex-Rebel" in the Detroit Free Press, I was a high private in a Confederate infantry regiment. About two weeks previous to the battle which drove us beyond Winchester, my company was ordered to the front to do picket duty along a certala line. Sheridan was even then becom ing aggressive, and his pickets were crowding us all along the front. At the spowhere I relieved the old picket the Feder als occupied a post not over ten rods away and during the daytime the conversation would run about as follows:

"Hello! Johnny!" "Helle! Yank!" "How long are you going to be there?"

"Why?"

" 'Cause we are going to drive you out a few days. Better get your knapsacks packed."

"You be banged." "See if we don't do it."

When Gen. Early made his great raid on night, and between me and the Yankee Washington I was scouting between his picket was open ground-a portion of an last released and carried a little to one side and have no skilled medical attended advance and the city, and was captured abl field. It was a very still night. The whippoo wills were singing along the Opequan, and from every bunch of grass came the notes of katydids and crickets. At about 11 o'clock, while I sat for a moment on a fallen log, looking straight across the field, a man suddenly stepped out of the cover of the woods on the far side and began advancing towards me. I caught the shine of the starlight on his musket at once, and immediately made up my mind that he was a hand; then his lips opened. advanced at a slow and measured pace, with
