# == PURITENE! ==

---

---

Is not the same as other Washing Powders. We claim that one spoonful will go as far as two of any other powder in the market, and it sells at Ten Cents per pound, full weight, which is less than what you are paying for inferior powders. It is kept for sale by nearly every merchant in Lehighton, and by every merchant in Weissport and surrounding towns; it only needs a trial to convince you that it is all we claim for it.

## Be Sure You Get Puritene!

Merchants who are not yet handling this article should order a Case at once and push it; it will not be peddled on the street, and when once you get it introduced you can drop sale of other soap producers and sell Puritene exclusively. Write for prices; will give special price on orders of five cases. ADDRESS,
