SEAN

The Devil Fish Described by Hugo is not a more tenacious monster that

alaria, whether it takes the form of chills malaria, whether I: takes the form of chills and fever, billous remittent, ague cake or dumb ague. Like the octopus of the story it clasps the yierim in its tenneculae, and folish in closer and closer in a horrible embrace. Attacked with Hostetter Stomach Bitters, however, it gradually relaxes its tremendous grin, finally aband-ons it, and the quondam sufferer, liberated a last, reloces in the aspect of new born at last, rejoices in the sense of new b freedom, engendered by the restoration of complete health. Dyspepsia, too, and con-stipation, those old and remorseless enemies sequences of the human family, give ground, and are finally driven from the field by this Napoleon of remedies, the greatest, the ourset in the family pharmacopoela. Ribeumatism succumbs to it, so do kidney

roubles. The nerves, when overstrained, regain quietade and vigor by its aid, and the ability to rest tranquilly and eat whit, cest are increased by it. Resort to it in time and avoid unnecessary suffering.

Home, Farm and Garden. -A little turpentine added as they boil will whiten and sweeten clothes without injuring the most delicate fabric. For garments very much solled use a spoonful

-Subscribe for and read the CARDON ADVOCATE. -Kerosene lamps turned down so as to

burn low soon poison the air of a room. This practice should never be allowed in a nouse, and certainly not in sleeping-rooms or sick-rooms.

-Hold raisins under water while stonug; this prevents stickiness to the hands. and cleanses the raisins. Put the quantity of raisins needed in a dish with water to cover, stone them before removing from

-Egg Soup.-Slice twe onions and fry rown, add three pints of water and boil,

add sait, pepper and a pinch of sugar, stin antil the soup has thickened, remove from he fire and mix in the yelks of beaten eggs. Have ready in the soup tureen ten ances of pulled bread, pour the soup over

and serve. -When the ground is hard and frozen work may be done by cutting out the surdus canes of blackberries and raspberries. the old cane is only a useless incumbrance to a vine, and should be removed while here is plenty of time for such work. A aberal application of wood ashes may be applied after removing the canes, while one dust will also be found very benefi--Farm and Garden recommends every armer who oulds an ice-house to arrange

ar a cold storage aparement in connection with it, for the preservation of Irun atter, etc. No master how small h s, it will be found a decided conveni-

-The cabbage requires a deep, rich oil, and thorough working. For early use me plant should be started in a hot bed or cold frame; but seed for winter ca-bage should be sown in a seed bed early in the ALL KINDS OF COAL, &c. ring. Some of the large late varieties cen to do best if the seed is sown in the mis whele they are to remain, and in that ase sow two or three seeds where each aant is desired and then pull up all bu Bank Street, Lehighton, Pa. ne strongest. Plant the large varieties three leet apart; the small, carly sorts, from a foot to 18 inches. The Savoya have wrinkled leaves and are of line flavor, And the Automatic Source Carbonage in a KOCH & SHANKWEILER'S oards or matting during winter. -A few pot herbs and sweet herbs hould have a place in every vegetable arden. Every cook and every good nousescepers knows the value of the little parch of herbs upon which she makes daily rafts in the summer and which furnishes such a nice collection of d led herbs for unter seasoning, without which the hanksgiving turkey would be scarcely worth the having; while as domestic acdicines several kinds are held in high epute. A very small space in the garden ives all the herbs needed in any family. ne culture is yery simple; and the best ay is to make a little seed-bed in the carly springs, and set the plants out in a mu as soon as large enough. As a generd rule it is best to cut herbs when in lower, tie them up in small bunches and ang in the shade to dry. -For beets the soil should be rich, action and deep. Plant in drills, about wo inches deep and the rows about 12 or 5 inches apart. For field cuiture the ows should be wide enough to admit the torse cuitivator, and the roots not nearer nan one foot in the rows. The manger oarse, and wonderfally productive, making excellent feed for cattle. -At a recent making of the American Contry Association, at Indinapolis, the Jorking fowl was exempted from heavy 'cuts'' as a fancy fowl, it being considered a strictly market fowl. The action recognizes the Dorking as the best and leading preed for market. Hotel Allen Building. -Save the tresh horse manure, free from litter, for your hot beds, and use plenty of it, in order to rabidly generate the heat when the frame shall be ready. The liquids of the stable are from three to six times as valuable as the solid portions, and it pays to save such. The best mode of so doing is to use some kind of absorent material. -A good word for the sparrows .- The sparrow is not guilty of haif the depredaions that are laid to him. They come to the very thresholds of your dwellings to pick up insects and vermin. They destroy enough weevil and worms to more than compensate for the grain they eat. Insec.s in new forms are constantly appearing in our gardens and orcoards, and to
