Current Events Epitomized.

An exchange says of the smart fellow: He comes into the office with cunning, leering smile, says something he considers very funny that he has been conjuring in his little brain for weeks, and expects to see the outcome published in our next.

Excuse us, but the water question will force itself up before us. Well, some of you lucky folks who happen to be the possessors of more than your share of filthy refuse to contribute, and why?

One of our popular young farmer friends reading near Beaver Run was "held up" by a highwayman or some such fellow one night recently while on his way home and in a lonely part of the road.

According to the Record, Summit Hill will ask for a borough charter at the October term of court.

The attention of the people of Summit Hill, Lansford and vicinity is directed to the fact that George F. Hantlinger, of the popular Switchback Restaurant, is authorized by us to receive subscriptions and moneys for the CARBON ADVOCATE.

The Weatherly Herald of last week says of our District Attorney: "After the usual ceremony in the cemetery about 600 persons gathered in the rink building to listen to the orator of the day, Hon. Wm. M. Rapscher, of Mauch Chunk, who in a plain, practical talk addressed the audience touching principally on the good merits of the Grand Army organization and why every man who shouldered a musket should be a member. Also, gave a common sense view of the pension question. Both subjects were of practical interest and value to the members, their friends and their adherents. He was very favorably commented upon."

The above is the name of the latest society organized in this town, composed altogether of young ladies of the grammar school and several younger members of the high school.

This society meets at the homes of its members and holds its meetings secret session on Monday evening of each week. In opening the meetings, besides song by the society, and scripture reading by the President, each member is required to give the pass-word to the President in a whisper. The purpose of the society is intellectual improvement, and the cultivation of politeness. At a meeting held this week at the home of Miss Clara Kuntz (one of its members) a splendid programme was rendered. Miss Ella Ebert, President; and Miss Mabel Wheatley acting as Secretary. FOR KNIGHTS OF LABOR.

Items of Industrial Importance Gleaned for the Masses.

Every workman is or ought to be a labor union in himself—always striving to obtain the best wages paid in his particular branch of the industry.

The section hands on the Missouri Pacific at Nebraska City, Neb., have struck against a reduction from \$1.50 to \$1.25 a day. Employees in a cozier shop at that place have also struck on the ground that they could not make \$1 a day.

There are 163 cigar factories in California where only white men are employed, and 114 factories where some but Chinese can get work. Of the former 113 are in San Francisco and Oakland, and there are 114 Chinese places in the same cities.

The men employed at the Sheldon Axle Works, Wilkes-Barre, on the machines known as runners, were notified of a reduction of one cent per set, equal to thirty to thirty-eight cents in wages per day. They complain they will not be able to earn their board.

The Statington Railroad Company, with a capital stock of \$20,000, was granted a charter at the State Department. The line will extend from a point on the Schuylkill and Lehigh Railroad, in Lehigh county, to a point near Walnutport, in Northampton county, eight miles.

California is like every other place. The San Francisco Reporter says: "If a man came hither without capital, and appeared to wait, or if he be poorly equipped with knowledge or handicapped by bad habits, he will find the fight for life as hard here as anywhere, and harder."

The committee of the Amalgamated Association completed the scale of wages on Monday governing all the workmen in rolling and steel mills. The wages of the workmen have been some what revised, but the scale for boiling remains the same, \$5.00 per ton, on a two-cent car, and the wages of the other men are fixed according to this basis.

Marion Harland. The celebrated author, so highly esteemed by the women of America, says on pages 103 and 415 of her popular work "Eve's Daughter, or, Common Sense for Maid, Wife and Mother": "For the aching back—should be slow in recovering its normal strength—an Alcock's Porous Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic vitalities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate case, for perhaps a fortnight." "For pain in the back wear Alcock's Porous Plaster constantly, renewing it as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."
