Current Events Epitomized.

Every citizen who changes his residence—removes from one ward, borough or township to another between now and the 6th day of November, loses his vote—voluntarily disfranchises himself.

The second anniversary of Lehigh Council, No. 101, J. O. U. A. M., was very pleasantly celebrated on Thursday evening. Rev. G. W. Gross, of Allentown, spoke on the occasion; the evening's exercises were interspersed with music and wound up with refreshments.

Good, renegade winter suits for men at \$3.50, \$5, \$6 and \$10. Good overcoats, \$4, \$5 and \$10, at Sondheim's One Price Star Clothing Hall, March Chunk. All our clothing is guaranteed to be 20 per cent lower in price than the same quality goods can be purchased elsewhere.

The gutter in front of Reber's drug store, has been relaid. Quite an improvement. By the way, if the gutters all along this thoroughfare were to be relaid and cleaned out thoroughly it would tend much to the general healthfulness of the town.

Our line of ladies' jackets and neckties surpasses anything shown in former seasons as regards style and price. All ladies are invited to call and examine our line of goods and compare prices. Sondheim's O. P. S. C. H., March Chunk.

A number of the old war comrades and friends of James Bigley, assembled at his residence on North Bank street, Saturday evening and tendered him a most delightful surprise. The event was the celebration of his birthday anniversary.

The attention of the people of Summit Hill, Lehigh and vicinity is directed to the fact that George F. Hinzinger, of the popular Switchback Restaurant, is authorized by us to receive subscriptions and money for the CARBON ADVOCATE.

When you come to the fair next week don't forget that you owe a dollar, possibly two for subscription to the ADVOCATE and that a liquidation of the debt will make you square with the printer and put you one ahead in the next world.

Indeavouring to fall to mention last week that Conrad McCormick, of Lehigh street, had presented the senior with a basket of grapes, but as the grapes were luscious and well received it is not too late to say "Thanks."

The borough authorities seem to be making good use of the \$600 or \$700 Lehigh money which they received from hotels and saloons. A number of drain pipes have been laid and streets have been graded.

The "lung tester," the "soad man" and the "man with the pulling machine" will be at the fair next week. Be careful not to allow yourself to be taken in by any of the swindling devices.

Persons out side of town, desiring a copy of the "History of Lehighton," now being printed in this office, can have the same mailed to them by sending two stamps to G. W. Mortimer.

We can tell you a way to use Wall Paper remnants, that will astonish you; to know how little it costs per a room with gilt paper. E. F. Luckenbach, March Chunk.

It is a little bit previous, but on the 1st of July 1889 a daily mail will be established between this place and Pleasant Corner, New Mahoning and Normal Square.

The derick erected on the site where the artesian well is to be sunk attracted many people to that vicinity on Sunday and during the week.

Roeder's barber shop has been artistically remodeled and repaired and now equals in appearance any similar establishment in the Valley.

Bla-headed "Jack" Walters, fireman on the Valley road, met with an accident at Packerton last week which has "laid him up" ever since.

All members of the Y. M. C. A., are requested to attend the meeting on Monday evening. Business of importance will be transacted.

The picnic at Millport on Saturday under the auspices of the Order of Odd Fellows is reported as having been a complete success.

Levi Fogel, of Harlecher's bottling establishment, is the proud dad of a bright baby girl. Mother and child are doing well.

Wall Paper! Wall Paper! big reduction in regular stock and remnants nearly given away at E. F. Luckenbach's March Chunk.

AMONG THE WAGE WORKERS.

An interesting batch of Labor Notes special for Ye Workmen. The Brotherhood of Locomotive Firemen, in annual session at Atlanta, Ga., took formal action last week, endorsing federation with the engineers and switchmen. It is stated upon good authority that the Knights of Labor will amalgamate with these orders, making it all one grand organization. In addition to an endorsement of the federation scheme, the Brotherhood voted an assessment of \$5 per month per man for the benefit of the Burlington strikers. It is a well known fact that Chief Arthur has always heretofore opposed amalgamation with the Knights of Labor, but now he favors it strongly.

It was claimed that the stock at the Allentown Thread Mill was the largest in the United States. The tallest is being erected at East Newark. This stock will be 335 feet high and will contain 1,700,000 bricks and cost \$85,000.

A Pittsburg coal firm has sent a large load of coal to New Orleans. This move will probably kill the "Coal Trust" which controls the fuel in New Orleans, Memphis and other cities.

Lancaster Pa., K. of L. Iron-workers passed resolutions that they would not return till some men were discharged, but they did.

In Dakota the Knights of Labor include three priests—Fathers Hens, of Aberdeen, and Fathers Haire and Perrault.

In 1887 Ireland's tillage land decreased 18,000 acres and the grass land increased by 50,000 acres.

At Buffalo the Bricklayers' Society has been expelled from the Central Labor Union.

Great Britain mines 16,000,000 tons of iron per year and imports 3,000,000 tons.

New Britain Co., Knights have debates on the tariff at their meetings.

The Farm and Labor party is a Minnesota institution.

Lehighton played its twelfth game for this season with the Catawissa League club on last Saturday on the home grounds. After a combination of errors in the first inning by which the visitors scored, the home nine kept them down by good all-around playing to three runs. Reichard and Brinkman were in the points for Lehighton and they manipulated the leather so successfully that but a few safe hits were made and base stealing was almost out of question. The features of the game were Koons' home run, Reichard's, Albright's and Brinkman's blooming and the base stealing of Smith, Albright, Reichard, Gartland and Yenser. The visitors played a poor game and were "toyed" with by the home nine. About five hundred people witnessed the game. Score 16 to 3. We below append the official score:

EDUCATOR ADVOCATE: The moral and religious element in the Republican party, brought to it and raised up in it during the time this party championed the slavery question, is still the strength and hope of the party. The moral and more particularly, the religious element of all denominations, irrespective of party, believe in and uphold the prohibition of the liquor traffic.

On the principles involved in the question of the prohibition of the liquor traffic the best people of both the old parties and the third party are a unit. They agree that the traffic should and must be prohibited; they disagree only as to method.

The third party prohibitionists believe in the enactment of prohibitory laws and a prohibition party back of these laws.

Many people who believe in the prohibition of the liquor traffic claim that for the present a prohibition party back of prohibitory laws is impossible, therefore not practical, and that what is needed is "practical politics" is less turning of conventions into prayer meetings, etc.; but that the singing and praying should be left to the ministers and mothers and wives and sisters, and give the management of "practical politics" in the hands of more skillful and less conscientious workers.

If doctrinaires of this kind encourage men like O. B. Sigley, who will preach in the attack ministers of the Gospel, and promulgate and deliberately attempt falsely, by insinuation, to blacken the character of a good man, and make it appear that he spoke falsely in public, then it is time that we call a halt to "practical politics" and pray the more earnestly for conscientious workers in "practical politics."

Whatever we did against the practicability of the third party method, it must be admitted that for honesty of purpose, integrity and character, the advocates of this method are of an exceptionally high character, and that Rev. J. S. Beyer is no exception. He is a minister of the Gospel in good standing in the M. E. Church. Is this no recommendation? To throw mud at such a man by a man like Sigley will not stick. It may drop where Sigley don't want it to drop.

Does the editor of the Gazette think the members of the Methodist church are so lost to all honor that they will meekly submit to his abuse? They love their church, they love their pastors, and many of them are third party men and two of their bishops. Then members have confidence in the honesty and integrity of their pastors. They have confidence in their piety. The word of sympathy and encouragement fitly spoken to their members has struck a responsive chord and endeavored them to the people.

To attack such men is to destroy confidence in Republican "practical politics." Is it a fact that the workers in the Republican party have no conscience? The presence of such men as Sigley and Bob Loggins, brewers and distillers among their workers makes it look very much that way. If these men would retire and do elsewhere, it would be a great relief and very much improve the Republican party. The services of such men in the party; the activity of such conscientious workers, reacts on the party.

They drive better men out and make work hard for good men who remain. We would have no straddlers out for the presence of such men in the party politics. We predict that the work of such conscientious workers, if persisted in, will react in the party. It should react, it may react on the county ticket, as a rebuke. It was done before it may be done again. Has the candidacy of W. C. Weiss, accepted by him not so much as an endorsement of the third party but as rebuke been forgotten? In these days when the people are studying methods pertaining to prohibition, the best of care should be exercised, lest confidence be lost. Straddlers are always dangerous and in themselves have a tendency to weaken confidence. Mr. Mulharen, as a member of our legislature, is expected and undoubtedly will vote to submit to the people a prohibition amendment to wipe out the business of his fellow candidate on the same ticket, Dilline Snyder, hotel keeper at Parysville.

And how these two men can stand on the same platform, and work together arm in arm, two jolly good fellows well met, saying vainly to Mulharen to give Mulharen an opportunity to help depreciate his property and destroy his business is beyond comprehension. If parties concerned are honest, how can this be reconciled? Will not the uncalculated attack by the Gazette on a minister of the Gospel react on Snyder?

Will the temperance people vote for Snyder; can they vote for Mulharen if they will vote to submit to the people a prohibition amendment to wipe out the business of his fellow candidate on the same ticket, Dilline Snyder, hotel keeper at Parysville.
