THE FALL THADE HAS NOW OPENED and with-more than usual promise to those who know how to reach legitimate custom. It no longer seeks merchants and dealers; It is sought and commanded by business energy and skill, and those who best employ the means and methods within their reach will reap the best harvest. Legitimate newspaper advertising is now confessedly the best method for commanding legitimate trade; and many business houses are languishing from year to year because they fail to advance with the revolutionary progress in business methods. The only anccessful business men to-day are the artistic, systematic and persistent adver tisers of trade; and hundreds of them have leaped to the front over established rivals simply because they understand the new sities of new occasions. The CARBON ADVOCATE is one of the best and cheapest mediums in the county. It reaches a large number of intelligent, thrifty and progressive readers, and its reading and advertisirg columns are always fresh and attractive. The fall trade is now open, and will be most heard from in the columns of at the time of her arrest. At first the symthose who would gather its richest fruits the widely read legitimate newspaper.
