Gideon Zimmerman, of Lower Town, is the owner of a clock one hundred years old. This is evidently one of "Grandfather's clock," that the boys used to sing about. An overcoat is just the thing for a holiday present for a boy. Take them to Sondheim's One Price Store Clothing Hall, Mauch Chunk, for a stylish suit or overcoat. It will please them greatly. What's wrong with the crossing at the Valley Home? Oh, that's all right. Wm. Waterbury furnished the logs and Charles Hilske did the work, so the are both entitled to a full share of praise from pedestrians who dislike wading through mud. All the "professional weather prophets" predict a cold winter, beginning about Dec. 20th, while the U. S. Signal Service looks upon season to bring up the normal temperature, which in the past seventeen years has only varied about four degrees. One hundred and nine season tickets for the institute lecture course were sold at Reber's drug store up to Tuesday evening, or three as many as were disposed of at Mauch Chunk during any institute session. Figures speak more eloquently than words in this case. Put this in your hat. Tommy, you must buy a Christmas present for your girl. Why not take her to Sondheim's O. P. S. C. H., Mauch Chunk, and buy her a stylish newmark or a plush coat? The lowest prices prevail. Y. M. C. A. Meeting. At the next meeting of the Young Men's Christian Association on Monday evening, in connection with the Bible Training Class lately started, the leader G. S. Heiss will give the Young Men a rare treat in the form of a Bible Reading and Song service on "The Gospel Railroad." A good time is expected, and all young men who desire to attend are requested to bring their bibles along and take part in the service. The time is at hand for the opening of the holiday trade, and naturally the people are desirous of knowing what the merchants have in stock suitable for presents, etc., yet it is sometimes inconvenient for them to go to the store to get the necessary information. There is no better way of acquiring it than through the columns of the Advocate, which has no superior as an advertising medium in Carbon county. If you intend to travel either for pleasure or profit protect yourself against the changes of diet and water, by having with you Leasider, the great regulator, and using it in time to prevent the disorders usually resulting from such changes. Mrs. Samuel Seidler, of Lehigh, was in town on Wednesday. Constable George Williams is about again after a serious illness. The interior of the county officers are to be re-elected, much to the satisfaction of their occupants. The hotel and restaurant business has been crowding in on Clerk of Courts Esler during the past ten days. Robert Kabe, a railroad of East Mauch Chunk, had an arm and leg broken in a wreck at Solomon's Gap on Monday. The new building and loan association has disposed of about fifteen hundred shares up to date. It will start out under very encouraging auspices. The public school teachers of East Mauch Chunk recently formed themselves into an organization for the purpose of studying the nature of the mental faculties. They will meet on the last Saturday of each month, and no doubt will be much benefited thereby. Mrs. Stevens and John Eberhart, miners, were employed in the Nesquehoning mine on Tuesday drilling the rock, that divides the Nesquehoning and Rachel-bernie vein, for the purpose of tapping the top water that had accumulated in the tunnel of the latter mine. It was understood that a rocky forty feet in thickness divided the two tunnels, so the men worked away so naturally drilling and blasting, unexpectedly and without a moment's warning. The explosion divided the tunnels, which, in fact, was a deep roar of rushing water that dashed the men wildly against the hard, cold sides of the chambers, bruising, breaking bones and knocking life's breath out of them. Had the accident occurred a few hours earlier, probably sixty or a hundred men would have been drowned in the mine. Stevens leg was broken in three places and his clothes were stripped completely—leaving him perfectly nude. The Lehigh Hook and Ladder Company, of town, will hold a meeting to-night (Friday). Don't fail to see E. H. Hohl's immense new holiday stock at the Mauch Chunk Jewelry Store. The interior of Charles Klotz's residence has been artistically painted and otherwise much beautified. The Carbon County Institute

The twenty-fifth annual session of the Teachers' Institute of Carbon county opened in the new Opera House at Lehigh on Monday morning very favorable auspices. Promptly at 10:30 P. M. Snyder called the Institute to order. The exercises were opened with prayer by Rev. Wm. Major. A short drill in vocal music in which the whole audience joined was given by Prof. W. B. Hall, of Lancaster, Pa. The address of welcome was delivered by Prof. Stetter, principal of the Lehigh schools. He was followed by Supt. Snyder, who said he felt proud to say that all the teachers in the county but five had already enrolled, and that last year's attendance at Mauch Chunk was the largest made in the state. He urged teachers to be prompt and regular at all the sessions. He also explained the new system of reporting attendance, his address was very pertinent and was well received by the audience. Prof. Alex. E. Frye, of Hyde Park, Mass., was announced as the first instructor of the week. The professor introduced himself very pleasantly by referring to his association with the teachers of Carbon two years ago. He took up the question, "Is Geography a Science?" Many facts are learned by pupils in geography which teachers know will never be remembered and never be brought out again. The tendency of teachers is to point into the minds of the children a mass of isolated facts, which are only when those facts are properly classified that they can be termed a science. Geography is the Geology of to-day. "The Responsibility of Teachers for the Voice Culture of their Pupils" was discussed by Miss Sadie Barber, of Palatinate College. Holland classifies humanity as follows: The artists, the teachers and the taught. Artists are few, teachers are many and the world is large. This puts weight respectively on the duties of each. The Creator has furnished each individual with the grandest, most impressive and most delicately constructed musical instrument. The ancients recognized the value of these gifts and attained great skill in its management. In modern days the average human voice shows absolute carelessness in the management of this God-given instrument. The duty of a reform in this important matter falls upon the instructors of the young. "Orations of the Voice" by Aske-Goutman, is an excellent manual. After a drill in music and a recess of five minutes, Miss Maggie E. Dotts, of Philadelphia, gave a recitation entitled, "Katharina's Visit to New York," which was well delivered and highly appreciated. MONDAY EVENING. The evening session was devoted to a musical and literary entertainment. It was a rich treat of the varied kind. Well selected and well rendered solos by Miss Lotz and Prof. Hall, recitations by Miss Barber and Miss Dotts, these constituted the evening's program. Dr. E. E. Higbee, State Supt. of Public Instruction, being present, was introduced and gave one of his pointed, cultured and important talks in which he emphasized the importance of music as a means of human development. TUESDAY MORNING. The Institute met in the public school building and was divided into three sections. First Section—Primary Grades. Second Section—Ungraded Schools. Third Section—Advanced Grades. The exercises were opened with prayer by Rev. J. H. Kuder. Music by the Institute. Miss Spear and Dr. Higbee addressed the first section. The former spoke on "Primary Reading and Busy Work," and the latter on primary teaching in general. The second section was addressed by Dr. Schaefer on "Physiology," and by Miss Barber on "Incorrect uses of the Voice in the School room and Suggested Remedies." The third section was addressed by Dr. Higbee. He spoke of the Physical and Spiritual elements that enter into a child's teaching. Dr. Schaefer spoke on "Finals and d in grammatical inflections. He gave valuable hints and gave a very skillful dissection to illustrate the laws that govern inflections. Prof. Redway lectured on "Geological Chances." The Prof. is a profound student and his talks are listened to with marked attention. Miss Barber gave a talk on "voice culture," the correct use of the voice constitutes a source of grace and strength to the vital organs of the body, it also requires a natural position of the body. Goutman said, "Without the muscles it is impossible to accomplish anything." Thomas Schaefer on "Physiology," and by Miss Barber on "Incorrect uses of the Voice in the School room and Suggested Remedies." The third section was addressed by Dr. Higbee.
