The Sun for 1889,

AND FOR THE DEMOCRACY.

THE SUN believes that the campatign for the election of a Democratic Congress in 1890 and a Democratic President in 1892 should begin on or about the fourth of next March. The SUN will be on hand at the beginning and until the end of the most interesting and important political conflict since the war, doing its honest utmost, as ever, to secure the triumph of the Democratic party and the permanent supremicy of the princip es held by Jefferson, Jackson and Tilden.

The great fact of the year is the return to absolute power of the common enemy of all good Democrats—the political organization for whose overthrow The Sun fought at the front for 15 years, the memorable years of Grant and the Fraud Hayes, and Garfield and Arthur.

It is the same old enemy that Democrats now confront, and he will be intrenched in the same strong position. It has been carried once by brave and hopeful fighting. Do you not believe with THE SUN that the ling can be done again? Wat and see!

The hope of the Democracy is in the loyal effort of a united press, cherishing no memories of past differences in non-essentials, longetting everything but the lessous of experience, and that victory is a duty.

Probably you know THE SUN already as a newspaper which gets all the news and prints it in incomparably interesting shape, whith chronicles facts as they occur and tells the truth about men and events with absolute for riessness, making the completest and most entertaining Journal published anywhere on earth, and which so is its opinious only to its subscribers and purchasers at two cents a copy—on Sundays four cents. If you do not know THE SUN, send for it and learn what a wonderful thing it is to be in the sunshine. AND FOR THE DEMOCRACY.
