-00	We also respectfully call public attention to

	We also recommend to the Board of Commissioners, that they as much as possible carry a system of book-technique of County Commissioners; also that an account be opened with the several parties who rent from the county.
	In the matter of the several items credited to the Commissioners in their Individual Accoun- for expenses meured in visiting the bridges of the County, attending the Commissioners' Con- vention at Eric, Pa., &c., it is the opinion of the Auditors that as a matter of right and equity
	the Commissioners should be reimbursed for their actual expenses incurred while in the ser vices of the County, but we cannot find any law allowing the same. Increfore direct that they be charged back to the Commissioners as follows:
