J. L. GABEL'S

—IS HEADQUARTERS FOR—
GENERAL HARDWARE.
**Paints, Varnishes, Glass,
ALL KINDS OF COAL, &c.**
**OPS. PUBLIC SQUARE,
Bank Street, Lehigh, Pa.**

OF INTEREST TO FARMERS

A Scrap of Paper Saves Her Life.
It was just an ordinary scrap of wrapping
paper, but it saved her life. She was in the
last stages of consumption, tall by phy-
sicians that she was incurable and could live
only a short time; she weighed less than
seventy pounds. On a piece of wrapping
paper, she read of Dr. King's New Dis-
coverer, and got a sample bottle; it helped
her, she bought a large bottle, it helped
more, bought another and grew better; her
continued its use and is now strong, healthy,
rosy, plump, weighing 140 pounds. For
full particulars send stamp to W. H. Cole,
Druggist Fort Smith. Trial bottles of this
wonderful Discoverer free at T. D. Thomas
drug store.

Farm and Garden Notes.

- Save up all the wood ashes.
- Remember that the site is half the
herd.
- Unleached ashes are the best fertili-
zer.
- Don't put a frosty bit in the horse's
mouth.
- Powdered charcoal in the dust bath for
poultry is recommended.
- It appears that the hot is just as fond
of pasture as any other animal.
- When you see people going out on ac-
count of low prices then is the time to go
in.
- If noted plants require fertilizers they
should be applied sparingly and frequent-
ly.
- Much difficulty in churning in winter
is due to keeping the cream at too cold a
temperature.
- As soon as the soil freezes hard all
newly set trees or plants should be slightly
banked up.
- The Polish fowl is recommended as
perhaps the handsomest of all varieties of
domestic poultry.
- Old newspapers or brown wrapping
paper can be used for rendering the poultry
house warm.
- The more an animal is exposed the
less it will produce, either of pork, wool,
mutton, beef or milk.
- Cold, dith and insufficient ventilation
are the usual causes of roup in poultry,
according to one writer.
- Cream needs stirring frequently, to
mix the different skimmings and to aerate
and ripen it evenly.
- Do not make a mistake in building your
poultry house too high. The windows
should face the south and east.
- Care well for the feet and legs of horses
when putting them into the stable, and so
prevent scratches and lameness.
- The farmer who has a big straw stack
had better have the stock to eat
for a few days before the stack is
burned, as they are liable to get
indigestion.
- With very little timber and plenty of
straw, rough but warm shelter may be
provided at little cost except for labor.
- Grass can be cut in the middle of
winter, but they are not usually of as strong
vitality as if cut earlier in the fall.
- To cut down taxes stop up the cracks
in the stables. Town, County and State
taxes are not the only ones the shiftless
farmer pays.
- Rather than fill your cellar with roots
and vegetables, construct pits for them.
While they are in the cellar disease lurks
there also.
- Light barley boiled is claimed to be an
excellent feed for horses, paying a fine coat
on them; though not so good for horses at
hard work.
- Asparagus and rhubarb beds should be
always manured late in the fall. It is very
difficult to have the soil for these two vari-
eties of plants too rich.
- Black knot on cherry trees may be cured
by an application of kerosene oil on the
limb affected, taking care not to apply
too much, as the tree may be injured.
- An attempt to grow seedless apples has
apparently succeeded. After much trouble
there are now two varieties of the trouble-
kind, both said to be of good size and taste.
- Flowering plants should never be wa-
tered with cold water as it will tend to
kill the plants. A little time taken to warm
the water before applying will be found of
considerable benefit.

The Chill Blast

That sets the nerved branches a quivering
is not felt by the wealthy valetudinarian in
doors, but not all the covering that can be
piled on his warm bed, nor all the furnace
heat that attracts the fire, will warm his
marrow when chills and fever runs his
icy fingers a chill his spinal column. Hos-
singer's stomach history is the thing to in-
fuse new warmth into his chilled and ague-
stricken frame, to remedy the fever and
exhausting sweat which alternate with the
chill. Dumb ague, acute chills, bilious re-
mittent—in short, every known form of
malarial disease is subjugated by this potent
and at the same time wholesome and genial
medicine. Billosumness, constipation, dys-
pepsia, sick headaches, loss of appetite and
sleep, kidney trouble, rheumatism and de-
bility are also remedied by this medicine with
perseverance to effect a thorough cure.

The Chambliss Goose Picker.

Geo. B. Randall, of Dighton, Mass., claims to
be the chambliss goose picker of America.
Some have been inclined to dispute the
title with him, and the result of this was
a wager that Randall could kill and dry
pick 100 geese in ten hours. The best pre-
vious record was 80 geese. The novelty of
the contest brought together a great crowd.
Randall went confidently to his work, and
from the time he started little could be seen
of him in the crowd of feathers which en-
veloped him. He won, however, the record
at the end of 9 hours and 55 minutes being
103 geese, averaging 11 2/3 pounds.

Home and Farm.

—Limo water is good for chills. Use
it strong and hot. A saturated solution of
alum in water, used hot, is also a curative.
—The man who never makes love to his
wife will find furrows growing in her face
that have never been scathed out after she is
dead.- Idleness among horses is as dangerous
as among men. Keep the team busy, if
possible, when the weather is fit for work.
Too much rest for them in the winter is as
bad as no rest.
- Spiral springs between traces and whif-
fletrees are of great advantage to horses that
are called upon to start and haul heavy
loads. Such springs relieve strain, save
wear and tear on man and horse, harness
and wagon.
- Yeast Patt cakes: Chop tenderly a very
fine, add one beaten egg and moisten with
cream; season well with salt, pepper, mace
or thyme. Make into cakes; then dip into
bread crumbs, roll over in finely crushed
crackers and fry in butter or lard.
- A Shred Cabbage Salad: Remove the
outside leaves from a large head of cabbage
and wash clean, shred and lay in a bowl,
shave over it a little salt and add a leaf
of nut parsley. Mix fine two hard-boiled
eggs, mix thoroughly a cup of salad oil and
vinegar, equal portions, pour over the cab-
bage and stir well with a fork.

It Makes You Hungry

Paine's Celery Compound
is a unique tonic and appetizer. Pleasant to
the taste, quick in its action, and without any
injurious effect, it gives that ruffled health
which makes everything taste good. It cures
Dyspepsia, and indigestion, and restores the
appetite and improves the digestion. It
restores the system and restores the appetite
and improves the digestion. It restores the
system and restores the appetite and improves
the digestion. It restores the system and
restores the appetite and improves the diges-
tion. It restores the system and restores the
appetite and improves the digestion. It
restores the system and restores the appetite
and improves the digestion. It restores the
system and restores the appetite and improves
the digestion. It restores the system and
restores the appetite and improves the diges-
tion. It restores the system and restores the
appetite and improves the digestion. It
restores the system and restores the appetite
and improves the digestion. It restores the
system and restores the appetite and improves
the digestion. It restores the system and
restores the appetite and improves the diges-
tion. It restores the system and restores the
appetite and improves the digestion. It
restores the system and restores the appetite
and improves the digestion. It restores the
system and restores the appetite and improves
the digestion. It restores the system and
restores the appetite and improves the diges-
tion. It restores the system and restores the
appetite and improves the digestion. It
restores the system and restores the appetite
and improves the digestion. It restores the
system and restores the appetite and improves
the digestion. It restores the system and
restores the appetite and improves the diges-
tion. It restores the system and restores the
