A Column for Farmers.

The Chill Blast

That sets the naked branches a quivering s not felt by the wealthy valetodinarian is loors, but not ail the covering that can b iled on his warm bed, nor all the furnaea that anthracite can fornish, will ware is marrow when chills and fever runs ha fingers a ong his spinal column. Ho ver's Stomach bitters is the thing to inuse new warmth into his chilled and ago sh frame, to remedy the flerce fever an

xhausting sweats which alternate with the hill. Domb ague, ague cake, bilious r nlitent-in short, every known form o malarial disease is subjugated by this poten and at the same time wholesome and gen 1 nedicine. Billousness, constipation, dypepsla, sick headaches, loss of appetite and leep, kidney trouble, rheumatism and de billt are also remedied b it. Use it with persistence to effect a thorough cure.

Farm and Garden Notes.

-The rutabaga has been recommend for carrie food these seventy years, and over fifty tons of that tuber may be grow

-Nweet potatoes will fatten a pig soonnan will corn. The small cubers can to sed, as well as those that may be damageeooking them for that purpose.

-The ducks commonly found in thi country under the name of Perkin are no of that breed at all, but are much smaller They are the White A leagury. The Perkin is a royal-looking bird, nearing goose in size.

-If the hogs are not accustomed to have ing all the salt they desire, they abould be brought to a full supply as soon as possibiwhen fed new corn. It should be a rule keep it by them all the time. Asher, charcosi and bituminous coal will be beneficial, allowing them free access to

-Pure water is essential to healt; Diphtheria, dysentery, typhoid fever, cholorare very often caused by disease in germdrinking water. Wells abould be at leasone hundred feet from manure heap-. the terminus of Eischen drains and ever; deposit of fowl matter. Rain water, pro perly filtered, is the best drinking water.

-The peach does best on its ewn stock n a light, rich, warm soil and in a warn limate, moderately free from winds. A ame of planting the tree should not be more than a year old. Some prefer to plant dormant buds, others want seedlings. where the trees are to bud to the varietie wanted the following ear. It is certain that seedling peaches are surer to live and do well.

-The farming of the future must be gradually contracted in the number of acres Less hard work over broad fields and closer attention to special paying crois on the fields that surround the house More pasture, more stock and pienty of ensilage, this insures the purchase of less commercial fertilizer and the very best results from the contents of the parn-yard.

-To cure gapes, put the chickens in a box, tie a piece of coarse sacking or cheese noth over the top, spread some fine air slacked lime on the cloth, and then jar i ne chicks. The lime inhaled b- the chickofficers the gape worms so that their bold the windpipe is loosened, and also uses the chicks to sneeze and cough, and throw up the worms.

-with the increased consumption of elery improved modes in its culture hav Numbered with these improved modes i the plan of bleaching celery by setting up boards a foot wide edgewise on either side of a row of plants and pulling the soil up against the lower edge of the board, so Wm. Radam's Microbe Killer, Philada. Pa. that the light is expelled. The boards are kept in position by short blocks notched to fit them and placed across the top, or any other contrivance that serves the same purove. The chief advantages claimed for his mode over the plan of earth-bleaching are no rust in warm, wet seasons, and saving of labor.

Feeding in Winter.

It is a waste of feed of any kind give to stock upon the ground, and especially in kind of grain. There is always mor or less loss that with good managemen ould ver readily have been avoided, and that would in a ver short ti e pay for the expense of providing suitable places for feeding. Even the bogs ought to have a tight floor upon which their corn can be fed, rather than upon the ground. Rougfired given to cattle, sheep or horses, if fer on the ground, is certain to have more of less of it trampled down and left. Tigh floors, upon which the grain fed to hogs can be rown, and feeding-trought or boxes to feed grain to the other kinds of s:o k, wi h racks or mangers for all kinds of rough feed, will prevent such lose. It all the stock are kept upon the farm tha the feed raised will keep in good, thrifty condition, it will pay to feed so as to avoid waste as much as possible. And where a considerable number of stock are kept, i will make a difference in the amount of feed well worth saving. The arrangements for feeding should b

made as soon as possible. Take a little time and plan to arrange conveniently. I will often make a considerable difference in the time required to properly feed and care for the stock, how the arrangements for feeding are made A due regard to the making and handling of the manure should also be considered. The making, saving and applying of all manure possible should always be made and item, and planning the feeding arrangements this should always be considered. The feeding arrangements need not be expensive; they should, however, be convenient, strong and tight, so as to save time and feed.

A Woman's Discovery. "Another wonderful discovery has been ade and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and as so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N C. Get a free trial bottle at T. D. Thomas Drug THE SPRING MEDICINE YOU WANT

# Paine's Celery Compound

Purifies the Blood, Strengthens the Nerves, Stimulates the Liver. Regulates the Kidneys and Bowels, Gives Life and Vigor to every organ.

There's nothing like it. "Last spring, being very much run down and debilitated, I pracured some of Patne's Celery Compound. The use of two bottles made mofeci like a new man. As a general tonk and apring medicine, I do not know its equal." W. L. GENERLER, Brigndier General V. N. G., Burlington, Vt. \$1.60. Six for \$3.00. At Druggists.

Use It Now! "Having used your Paine's Celery Compound this spring. I can safely recommend it as the most powerful and at the same time most gentle regulator. It is a splendid nerve torife, and since taking it I have fell like a new man." K. H. Kwonn, Watertown, Distota.
