# A Column for Farmers.

### A Terrible Misfortune.

It is a calamity of the greatest kind to find that one's physical energies are sapped, that the prime of life—to feel more nervous, more dispirited, weaker every day. Yet this is the unhappy lot of hundreds who neglect themselves at all who need a tonic. Hostetter's Stomach Bitters is such a medicine and one of the best to take. It is a purgative of the blood, dispels all nervousness, restores the stomach, and acts as a tonic for the system. It is the best for the first and second stages of a disease of the blood, and as a consequence of lack of stamina—deat when a course of the Bitters is taken. All forms of indigestion, rheumatism, kidney and bladder trouble, constipation and biliousness are cured by this standard family medicine.

Items of Interest.

- Soap suds are a valuable fertilizer to use in the orchard and among the small fruits.
- One of the favorite table fowls is the Dorking when dressed they are very plump and their flesh is juicy.
- Plants are most injured by having their roots water-soaked. Wait until the plants show the need of water before giving it.
- Poultry manure is one of the best that can be used in the garden, either as top dressing or to apply in the hill or drill, and good care should be taken to save all that is possible.

- Live Fritters.—One and one-half cups of flour, one egg, one-half cup of milk, one tablespoon sugar, a little salt, two table-spoons cream of tartar, mix with milk and drop from a spoon into hot fat.
- As far as the experiments have been conducted it has been demonstrated that when wheat is cut 90 cents per bushel it is the cheapest grain that can be used as food for stock, being more nutritious than corn and better adapted for growing stock.
- Yankee Fritter Bread.—One quart of corn meal, one quart rye meal (not dom), one cup molasses, one-half cup of yeast, one cup water, mix with water and allow to rise three hours. Bake in a very slow oven, or, what is better, steam it for five hours.
- Early in the season, before the potato is up, the beetle will attack the tomato plant in hot-beds, or that may be set out in the open ground. It will destroy a whole field of egg plants in a single night and often does more damage to early plants than it does to the potato crop.
- Among the most useful of all cannibal insects are the small and beautiful lady-bugs, so well known to our readers to need description. Their favorite food consists of plant-lice (aphids) and potato-bug eggs. The gardener should try to protect these little friends of his.

- A horse thoroughly exercised and warmed, and allowed to stand uncovered for fifteen minutes in a freezing atmosphere is injured more thereby than he could be by excessive hard work. Anything as valuable as a good horse is well worth the expenditure of the sun necessary to provide good covering, not to speak of the demands of humanity in the case.
- One of the heaviest works in growing a crop of carrots is the harvesting. With the old sort that run downward indefinitely, this labor was impossible on a large scale, except by plowing out, and in deep soil this often cut off the bottom of the root. The Southern carrot grows enough above the surface to make a good handle to pull up by. It is a variety that is less injured by frost than any other, and will produce early or quite as much per acre as the long sort, and with far less labor.
- If vegetables are to be marketed, ascertain which varieties are popular in the locality. Sow the main crop of tested varieties only; invest moderately in the highly priced novelties, procuring only enough to give a fair trial, and, if found desirable, to give a supply of seed for another year. If seas and other garden truck are to be shipped to a distance, provide a supply of string beans, of just-bested, bushy, bush-beans, specifically, beforehand. Let your mark or brand stand for honest measure.
- An evidently shrewd observer says that considerable success on the part of farmers depends upon keeping a close eye to the market. The first of any new crop will almost always command a high price, and soon after, when there is a rush for the market, prices rapidly decline. Unless one can be the first, it is better to hold until the price has passed the peak and then sell, than to enter the market at once. It is the feeling of the market that brings low prices and for that reason a close watch should be kept of the reported supply and demand.

A Safe Investment.

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our ad-vertising druggist a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of throat, lungs or chest, such as consumption, inflammation of lungs, bronchitis, asthma, whooping cough, croup, etc., etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon. Trial bottles free at T. D. Thomas' Drug Store.

### Cost of Keeping a Horse.

The cost of keeping a horse by the most persons is more gun-wick instead of careful figures. If one purchases a good horse 4 years of age, for \$150, it is a good bargain. A top buggy will cost \$125; center, 25; harness, \$50; robe, \$10; blankets, \$5; comb and brush, \$2; whip, \$2; which amount figures \$337. Now, if we take all into consideration, these will last on an average ten years. Perhaps the wagon might last longer, but it would need replacing in that time; on the whole, ten years is a long average, as the horse might be worthless in five years.

If it costs \$337 for ten years, it would cost at the rate of \$33.70 per year, and the interest on the whole outlay at 6 per cent would be \$20.22. Add to this at least four tons of hay, which has averaged in the past 12 years \$12 per ton, \$48; one ton of straw for bedding, \$7; ninety bushels of oats at 35 cents per bushel, \$31.50; shoeing \$5, and it would be a cheap job to care for a horse, would bring the price to \$52 per year, or the sum total of \$107.42 for the year at moderate figures. And yet we find those who keep a horse and have no real business for it and do not keep a cow, when the cost of keeping a horse is two cows, and yet they do not see how they can keep a cow.

# SPRING '89

OUR REPUTATION FOR FIRST-CLASS CLOTHING AT REASONABLE PRICES IS WELL ESTABLISHED, AND THIS SEASON WE MEAN TO EXCEL ALL FORMER EFFORTS.
