RHEUMATISM AND NEURALGIA

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so their patients. Paine's Celery Compound has been found to be the most effective remedy for these ailments. It is a natural product of the earth, and its use is recommended by the highest medical authorities. It is a powerful purifier of the blood, and its use is recommended by the highest medical authorities. It is a powerful purifier of the blood, and its use is recommended by the highest medical authorities. NOVELTIES IN JEWELRY.

In flower pins the penny holds away. Fluted gold lockets with diamond set centers are all the go.

An odd design in bronze eard receivers is the head of an oval flattened out.

Scarlet pins in the form of silver knots of twisted wire bid fair to become popular.

Among scarf pins is noted a cluster of pearls abundantly interspersed with diamonds.

There appears to be quite a demand again for pearl headed pins with oval pendants.

Extremely rich looking is a bracelet set all around with opals and rubies alternately.

The newest gown chains are composed of small plates divided into three sections by pearls.

Cunning gold crocheted needles, with carnelian agate handles, have just made their debut.

The ring of the period is a neat Roman gold bangle set with a rich cluster of colored pearls.

An oblong opal set slanting in a bright gold frame is a fashionable scarf pin of modest pretensions.

It has become a fad to have the handles of glove buttons beautified with numberless garnets.

As neat as any is the queen chain pendant in the form of a fluted silver ball, pure and simple.

A burnished gold horn, across the center of which rests a diamond horseshoe, is an attractive broochpin.

Matchboxes of dull gold ornamented with delicately engraved monograms continue to gain adherents.

Blue enamel cut buttons have diamond centers set around with a narrow gold rim and are very attractive.

Miniatures are used in mourning ornaments, and may be seen to advantage in jet frames set with half pearls.

The latest gown chain pendant is a miniature Bible in bright gold with sliding covers to hold cheering gum.

The newest type corsicrew has a curiously wrought handle of etched ivory and silver, combining elegance with utility.—Jewelers Weekly.

THE GENTLER SEX.

A New York lady was lately seen with a tiny watch set in the back of her glove.

Horsier's Nest is the name of Mrs. Halford's winter retreat at Orlando, Fla. It is a point of land jutting out into Lake Lake.

Rhoda Droughton, the English novelist, lives in a little old house in a little old street at Oxford, with a walled garden filled with roses.

The right of women to practice medicine in Canada has been established by the successful application of Miss Michel, a graduate of Queen's university, Kingston, for a license.

Mrs. Rollins Jones is credited with being the leader of Boston fashionable society this winter. She is the daughter of Rear Admiral Charles Stoddard, United States navy.

Mrs. Frances Hodgson Burnett says she spends about one-fourth of her life at present on the cars, vibrating between managers and publishers in New York and house decorators and furnisiers in Washington.

Mine, Carnot, of France, has set the example among the ladies of the presidential court by wearing lilacs of the valley on all occasions, and these flowers are now regarded as the emblem of the Carnot regime.

The income of the Dowager Empress of Germany is estimated at \$700,000. Of this \$500,000 comes from the state and the remainder from her private fortune. She has just inherited 5,000,000 francs from the estate of the Duchess of Gallien.

Miss Helen, an English woman, passed through New York recently on her way to the Sandwich Islands, where she came to nurse a leper colony at Malakal. She can never again mingle with the outside world. It is hard to see how heroism can go farther.

THE MODEL PRESS.

My Model Press netted me in three months over \$1000. I never had instructions in printing, but I set up and printed 10,000 deposit tickets on my Model Press the day after I received it. I have made more than double what my other Presses netted me in the same time. I have about \$2000 worth of work on my No. 1 Model Press. It beats all—After three years' use I find my Model Press as good as new. The Model Press is well built and ought to last for a century.

Full information in a book called **How to Print**, free with a copy of the Model Press, upon application. Address: THE MODEL PRESS COMPANY, Ltd., 612 Arch Street, Philadelphia.

ELECTRIC SPARKS.

Electric spark plows are to be used on the electric railway in Boston.

The Tuesday Mail cable is the Gulf of Mexico at the rate of six miles per hour.

In Spain a law has been passed compelling the employment of electric lighting in all theatres.

It is found in practice that the higher the insulation the easier it is to maintain electric light circuits in running order.

An iron drawbridge at Bridgeport, Conn., will be worked by electricity, and is believed to be the first of its kind in the country.

An exceedingly sensitive electric bell has lately been introduced which will ring through a quarter of a mile of wire when only one Leclanche cell is used.

It is claimed that cable telegraphy is still open to improvement in more than one direction, and that the matter of the best type of cable to be used is far from being settled.

An emergency stop where electric and automatic brakes were used brought a train of fifteen cars to a standstill in 650 feet, the speed of the train being thirty-four miles an hour.

The prize offered by the French Academy of Sciences for a paper on the transmission of power by electricity has been withdrawn, no paper of sufficient merit having been received.

In the lighting of the American section of the Paris exposition the Holzer company proposed inserting ton miles of circuit wire to indicate the practicability of carrying the current to any desired distance.

Experiments as to the inductive effect of electricity seem to show that the transfer of a single spark is sufficient to disturb perceptibly the electricity of space through a cube of 400,000 cubic feet capacity.

Un deservedly Laughed At.

The not thinking are prone to make game of nervousness. Yet this is a very real and serious affliction, the harassing symptoms of which are rendered all the more poignant by ridicule. The stomach is usually responsible for these symptoms—its weakness and disorder find a reflex in the brain, which is the headquarters of the nervous system. As a nerve tonic and tranquillizer, we believe that not one can be pointed out so effective as Hostetter's Stomach Bitters. In renewing vigorous digestion, it strikes the key note of recovery of strength and quietude by the nerves. Headaches, tremors in quiet sleep, abnormal sensitiveness to unexpected noises—all these modify and ultimately disappear as the system gains strength from the great tonic. Dyspepsia, biliousness, rheumatism, constipation and kidney complaints are subdued by the Bitters.
