REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the pen market, and find it composed of pure and wholesome ingredients. It is a cream a tartar powder of a high degree of merit, and does not contain either alum or hosphates, or other injurious substances.

E. G. Lovz, Ph.D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure.
"It is a scientific fact that the Royal Baking Powder is absolutely pure. "I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. HENRY MONTON, Ph.D., President of Stevens Institute of Technology."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1878; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country. No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

Note—The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree strength than other powders ranked below them, it is not to be taken as indicat-that they have any value. All alum powders, no matter how high their strength, to be avoided as dangerous.

and as she asserted before she died poison ed her. At any rate, she died at the hospital on Friday, and the dector is confronted with the charge of murder. It is a sad ending to a gay elopement. At last, it is said that the Stewart will their acc
