AN OPEN LETTER.

EDITOR CARBON ADVOCATE:—Owing to the wide interpretation as to the position I took in the street matter for Council, I desire to make a brief explanation.

Several days previous to the opening of the last session proposals, Mr. Cook, (the old gentleman) called to see me, and informed me that he could, on account of having his own crusher and easy access to an excellent quality of stones, build us a No. 1 road, with all crushed stones, for a trifle over two and a half dollars per foot.

This was the first knowledge I had of an all crushed stone street, and it being contrary to the specifications, Mr. Cook agreed to draw up temporary specifications, explaining how he would make the street, together with the cost per foot, and send it along with the usual and regular advertised specifications. As secretary, I told him that we wanted to get the best street possible for the least money, and he would be pleased for him to do so, and I would submit the same to council for consideration.

The day following, Mayor Lehr, of Allentown, who is in some way connected with Reimsmith & Yeager, and Yeager & Co., contractors, of the above city, was in town looking up information on the last change in the plan of the street, and dropped in to see me. In the presence of our street Commissioner I asked him to give me his candid opinion on the difference of the street proposed by Mr. Cook and the one according to our specifications. He was decidedly in favor of the ten inch crushed stone, and said emphatically that it would be the best genuine macadam street.

Accordingly when Council met on the evening of June 9 to open and consider the sealed proposals I explained to them the proposition made by Mr. Cook to make an all crushed street for \$2.75 per foot complete, and to see me. In the presence of our street Commissioner I asked him to give me his candid opinion on the difference of the street proposed by Mr. Cook and the one according to our specifications. He was decidedly in favor of the ten inch crushed stone, and said emphatically that it would be the best genuine macadam street.
