IS a blood disease. Until the poison is expelled from the system, there can be no cure for this losthsome and dangerous maindy. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla - the best of all blood purifiers. The sooner you begin he better; delay is dangerous.

"I was troubled with catarrh for over, two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsapurilla. A few bottles of this medicine cured me of this troublesome complaint and completely restored my health."—Jesse M. Beggs, Holman's Mills, N. C.

Reggs, Hoiman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was incined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that apything would cure me. I became enactated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dozen battles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."

Brazilian Coffee. The bulk of the entire coffee prod act comes from Brazil, which has a peccliarity of its own. These coffees are barsh and rank, as compared with

the milder kinds. It was estimated that Brazil once furnished 65 per cent, of the entire coffee product of the world. There have been of late years one or two partial failures of the crop in Brazil, which accounts for the high price of cofee here. You will probably remembe that coffee was very low from '84 to '87 n fact the prices were so very low that razilian planters did not have the ber ries picked, it bringing them in debt. In consequence, they allowed their plantaions to run down, which in part acounts for the present shortage.-Chica o Herald.

A Lary Dog. There is a dog in Chester, Pa., which ill never walk when there is a chanc to jump on a street car and ride. He is a black Newfoundland, Much of his time is spent at the stables. Although his home is only two squares away he never walks to it, but waits for a car go-ing that way, on which he jumps. He often goes off on a pleasure trip, riding to the different sections of the city on lifferent cars, always sitting on the surbstone until the car he wants come long, showing remarkable intelligence in allowing to pass him those cars which branch off in directions contrary to the one he wishes to take.—Pittsburg Dis-

An Elaborate Light. A novel arrangement for securing as abundance of soft light together with perfect ventilation has been installed in an opera house in Chicago. The device is, in form, similar to a large parasol, eighteen feet in diameter, the perforaof gas jets if necessary, while from the tips of each rib incandescent buils hang, giving a perfect and powerful circle of light. Another feature is the use of inindescent bulbs, arranged in a wire net, to indicate the name of the company playing.—Chicago Letter.

A Woman's Way. A woman wage earner who works from 8 in the morning until 6 at night and occasionally finds herself too weary o sleep, takes down ber hair at 10 o'clock, brushes it vigorously, washes her face, neck and arms with lukewarm water, takes a crash towel bath and goes to bed, with a hot water bag at her feet. The light in her room is so arranged that she can, after reading for a few moments some light, pleasant work, extinguish it without rising, and she usually drifts into dreamland in less han half an hour.-Chicago Tribune.

Frenchmen are waking up to the fact that the German colony in beloved Paris is rapidly increasing. There are nearly 38,000 of them—in other words, twelve persons out of every thousand of the population are Germans. The total has doubled in the last ten or eleven years, and it is more than double that of the British, who are just under 15,000 strong. The English have their own quarters, but the Germans distribute themselves over every arrondissement,-Paris Let-

The farmer Hotel Allen Building, beat him down to half wages, but after going ten feet down the digger struck a jug with \$750 in gold in it and took a skip. The farmer then dug twenty-two feet more, nearly broke his back, and didn't hit anything but stones.-Detroit Free Press.

The scoring of the bores of modern annon by the new powders in use is daimed to be due to the fact that upon gnition all of the powder is not turned o gas, some of it remaining in a finid tate. It is this latter which does the scoring by being thrown with such force against the metal of the gun that the re-sulting action is very similar to that of a and blast for cutting glass.

J. Bryan Grimes, of Pitt county, N. In England in 1868-69 there was one known thief to every 1,000 persons; in 1887-68 the percentage had fallen by nearly one-half, and there was only one known thief to every 1,945 persons. The decrease in the receivers of stolen goods is still greater. In 1868-69 there was one to avery 8,450 people; in 1887-88 there was one to every 25,500.

A Clergyman's Plight.

The Rew Dr. Todd, of this city, once found himself in the pulpit Sunday morning with the wrong sermon in his pocket. There was no time to send home for the right one, as the congregation was singing the hymn that preceded the discourse; nor would it do to preach from the manuscript before him, as it had been directed against his heavers but a few Sundays before. It was a critical moment. He succeeded, however, in recalling the text on which the absent manuscript was based, and so he began and finished his remarks on that line of thought without a scrap o' paper to help him. It is a fact that a number of the reversed doctor's hearers stopped a moment after the sermon to congratulate him on an especially fine effort.-New Haven Palladium.
