Mr. John Semmel's open letter in explanation of the street matter as it appeared in this paper last week has been the means of completely changing public opinion on the same of the street matter as its each of today; whereas the Indian immigration probably took place many hundreds of anny hundreds of years ago. The writer has not been the call of duty when opportunity comes. Professionally, this quality is not known as stock speculation to the great majority is gameling. And the crack tipster must also have a well developed fsculty for explaining defeat. He must never admit that he was wrong. That would be failed. He must say that somebody else was wrong, and he must valiantly offer to prove it. If his cheek is properly regulated and serves him well, the dis-

A second petition, favoring the genuine macadam street as set forth in Mr. Semmel's letter, signed by all the property owners on First street, with but few exceptions, was again presented to Council this week. In face of this it is hardly possible that Council will persist in forcing the matter through senggy and ability in looking after affairs. He is a live citizen and worthy of the highest esteem of our people.

It does not follow that all the aboriginal inhabitants of America are of Mongolian descent, even if they all came from Asia. The writer has seen the descendants of the Aztecs in Mexico, and it is difficult to imagine any relationship between them and the Mongolian. Yet Aztec tradition points to the north as their original seat, and among a people who had no method of transmitting history by writing tradition is likely to have been fairly accurate.
