THE DIGNITY OF OUR POLICE ASSISTANT.

—The stockholders of the Lehigh Valley Emery Fuel Company in annual meeting Tuesday evening elected the following board of directors: Wm. Lilly, Wm. Strub, B. F. Hoffer, R. V. Wingard, J. G. Zern, W. H. Butler and Lee Willis. The board in turn made Wm. Lilly, president, and Lee Willis secretary and treasurer. A report of the business of the past year together with the progress made on the new verifying process wheel was presented and elicited lively discussion. It was decided however that the experiments be continued and to this end new kilns will be built and an experienced man specially employed. During the past week the company has held its own, though the trade generally has suffered, there being numerous failures all over the country, due entirely to unhealthy competition and the persistency to cut prices by the inexperienced in the trade. The Lehigh company has pushed its experiments at great cost, safely weathered the uncertain, and is at present in first class financial condition, due entirely to judicious management. The new process wheel is the wheel of the future, and if experiments now making with the Lehigh company result successfully the future holds much for them. They still hold a large trade at steady prices and enjoy the confidence of dealers which is more than can be said of many concerns who attempt to weather the trade with poor wheels and cut prices.

BASE BALL GOSSIP.

Simmons is phenomenal on second. Nusbaum batted against tough luck. Lehighton at Philadelphia on Saturday.

Taylor Hallman has asked for his release. Jennings put the usual ginger in the game. Albricht played without an error on third. Mertz's decisions were according to Hoyle. Rothelers works considerable ground at short. The Rose Buds only scored one hit off O'Hara. Yenser continues to keep down his corner in left. O'Hara plucked thirteen Rose Buds at the home plate. When Hummel started to coach the wind stopped blowing! Three hits, with a total of four, is Bob Chambers record in Saturday's game. He is the easiest player in the club. Bartholomew has quit umpiring. He was sporting a decorated nose this week as a result of a crack with the ball that made his diary.

Pross Koch won a vicious round of applause in a wonderful slide to second that plowed up the earth and twisted his suspenders up back of his neck in a knot no bigger than an egg. Judgment!!! The Cigar makers and Tailors went at it for nine innings on Monday morning with the result that the latter were "rolled" for 23 runs against 17. Mandus Mertz and Hugh Jennings napped. The game abounded with ludicrous errors and glaring combinations.

The Yeas reporter, of Slatington, must have lost some bonnie on the Lehighton-Jamestown game, for he vents his spleen by blaming the loss of the game to the latter club by reason of the rank umpire, when it just stands reversed. Lehighton played against ten men in both games. The truth is acceptable at all times. The Single fellows and the Married men played ball Saturday morning last. The score stood 14 to 15 in favor of the latter when the game concluded. There were several intricate plays made, some gorgeous base running, some magnificent batting, some great coaching and some phenomenal catches. The honors were about equally divided outside of Will Ash's home run.

Saturday, Lehighton scored its twelfth victory by defeating the Rose Buds, of Ashley, in a magnificently played game—two errors only being credited to the home club. Lehighton scored the first inning and kept the ball rolling thereafter for twelve runs, while the Rose Buds, falling to get into O'Hara's intricate curtes, piled up goose egg after goose egg, ending the game with a blank. The applause was about equally divided. Smith started in to umpire but was asked to step out for the fourth inning when a new man was substituted.

A third game of ball with Cataasqua on the home grounds Wednesday, resulted in a victory for Lehighton with a score of 7 to 5. It was a brilliantly contested game from beginning to finish, but conclusively showed the home team to lead in ability. There was more heavy batting than in any previous game—Samuels, of the visitors, putting a ball over straight field fence and scoring a home run. Sweeney who retired the first part of the game was removed for the last two innings and Young was substituted. Following is the score by innings: Lehighton—2 3 0 0 0 0 0 x—7 Cataasqua—0 1 0 0 0 0 0 1—5 Errors, Cataasqua, 6; Lehighton, 3. Struck out, by O'Hara 0, M'Keever 2.

Mrs. Michael Schmitz, the woman who lost a leg, an arm and all but one of her fingers on the other hand by being struck by a Lehigh Valley engine at Hokenesquia several months ago will on her way, with her two children, to meet her husband at Siegfried's Bridge, still living at the latter place.

WHAT PEOPLE TALK ABOUT.

Picked up Here, There and Everywhere by a Lively Penell Patcher.

William M. Daphner, of Mauch Chunk, who is a candidate for State Senator, lived in Lehighton for many years. He served in the late civil war, afterwards he taught school and later was admitted to the bar. For nine years he was a town councilman and he also served as a school director. He has always been a taxpayer and much esteemed by people of both parties who appreciate his rare abilities. In his candidacy for Senator it seems to be the consensus of opinion that he should be appropriately recognized by our delegates in the convention.

There are always some people who will kick, and there seems to be a good bit of cold horse sense in the remarks overheard the other day in regards to the Borough having all street work done by contract instead of, as is now the case, having it done for the day work system. For instance, if the work of grading the North end of Second street were contracted it would save some money to the taxpayers, as well as appear when the Commissioner gets through with it. The plan of working out the taxes is pernicious any way. Of course the street Commissioner is not to be blamed.

With a couple of prominent citizens we stood on the corner, at the Carbon House one day recently, and in the course of a half hour we heard a dozen or more people in passing, condemn the Park, as being disgraceful in appearance. It is unnecessary for us to say that they were pretty near right, a person with half an eye can see it. It seems, however, that Council is not exactly to blame as they gave out the plan to a certain individual who was to have the plans for keeping it up. He has not come up to time, and we suggest that Council run the concern hereafter. It will cost a little more but it will be more creditable to the town.

Everybody seems to be greatly disappointed on the number of our population as given in the ADVOCATE last week 2000 is not within 700 or 800 what was expected, though on consideration the increase since 1880 when we had 1900 is quite creditable. It makes an increase of fifty per cent, a better gain proportionally than many towns can boast of. There are many reasons why Lehighton don't progress as it should, but the particular one in jealousy and the effort to run the town without spending any money. When we get over this and begin to fraternize as neighbors, working for a common end, why we'll commence to get there. When the weather cools off and things get normal take a good square look at it, then take a tumble to yourself.

It seems to be generally considered a wise thing that Council build a hose house, with conveniences for meetings, etc. We overheard some one say the other day that the prospective building is to be something on the style of the town hall at Slatington. That is, it is to have rooms for council, school board, hose company, etc., with a lock-up in the rear. It will be a brick building, three stories high and if put up right will always be a credit to the town. The taxpayers won't likely grumble at the expense because it is a wise as well as a highly necessary one. Let the good work go on.

PACKERTOWN PARAGRAPHS.

—Thomas Conarty suffered the loss of a finger the other day while making a coupling.

—Through her confessor Carbon frittered away her chances for the next Congressional representation. It is proper to say, however, that they did not realize it until after Monroe's action. Carbon ought to have the next Congressman, but the chances are doubtful.

—The right of a candidate to select delegates pledged to vote for him is alright, but the attempt to control them in the interest of others is all wrong. The delegate who permits himself to be a "puppet" does not deserve recognition. The object of a convention is to select as nominees, men who will truly represent the best interests of the county.

—How very careful the girls of any community should be in the selection of male companionship, truly of both sexes it can be said: "We are known by the company we keep." The pure, innocent, unsuspecting girl—thoughtless in this, causes the tongue of scandal to wag, and too late for correction must suffer social ostracism. Care in the choice of companions, in public action, true modesty, are essentials, disregarded of which bring misery and ruin.

—The Packertown school board in the selection of teachers for the coming term guarantee good schools. The principal, Harry Kidd, gave excellent satisfaction last year. Miss Maggie Gould merits the appointment to the primary department; it is a just recognition of home talent. Miss Jennie Meyers, an experienced teacher, will have charge of the Jamestown school. The board are to be congratulated on their past and present work.

—The Lehighton team is a strong one and has not been beaten, except by York. The attendance has been good, but the decadence of base ball interest is a feature that suggests, or ought to, that future contests should be with teams that can play. The game last Saturday was inspiring; the public want a well contested game. Good attendance is necessary to keep the present good team, and next season they can enter the Lehigh Valley League as A No. 1.

—The candidacy of F. P. Semmel, a thorough Democrat, and fully qualified for the duties of Recorder, ought not to affect the matter of Senatorship. Mr. Semmel has an unquestioned right to make the canvass for Recorder, and if it is to be a fair, square, honest, open fight with a sincere intent to make the nomination and election, Frank will do no doubt be well supported. Let the different candidates in this county canvass upon their individual merits, doing this, the best men will win, and the county have good officials.

NEW COUNTERFEIT BILL.

A new counterfeit two dollar silver certificate has appeared. It resembles the genuine so closely that it will be necessary to remember the following description to detect one: Paper and general appearance good, denomination "2" series of 1880, check letter "D"; W. S. Rosenman, register; J. W. Haytt, treasurer. The seal is like the former counterfeit two dollar bill and is small, and the numbering is somewhat irregular and the figures of different sizes.

An expert might accept the bill. It is safe to reject a two dollar silver certificate with the check letter D that also bears the combination Haytt and Rosenman.

—The Mauch Chunk Home, on Broadway, is undergoing a number of attractive improvements. R. N. Deppe, late of Allentown, is the new proprietor, and he seems to be making things hum.

—At Mauch Chunk they have gooseberries as big as hens' eyes. Wonder if "Happy Sam" doesn't think he got more than his share of them about the 4th of July? asks the Allentown Editor.

—The Mohrman—Kramer celebrated the 25th anniversary of the former paying all costs, etc., according to the verdict of the jury. Application had been made for a new trial, but there was no argument.

—A lively party picnicking at Glen Onoko last Sunday included all the employees of the several bottling establishments from Allentown up, owned and operated by Prof. Horlacher, of Slatington, together with their families and a few of their friends.

—Rev. Father Innes, of the church of Immaculate Conception, called from New York Wednesday for Europe. He will not return until about September, 30. While abroad he will visit Paris, Rome and Vienna. During his absence Rev. Father McKabe, of St. Charles Seminary, Overton, Pa., will officiate.

—It is offered as a suggestion that the Democrats combine business with pleasure and hold their next county meeting on Monday, August 18,
