most popular of all cough cures.

"Of the many preparations before the public for the cure of colds, coughs, bronchitis, and kindred diseases, there is none, within the range of my experience, so reliable as Ayer's Cherry Peotoral. For years I was subject to colds, followed by tarrible coughs. About four years ago, when so afflicted, I was advised to try Ayer's Cherry Peotoral and to lay all other remedies aside. I did so, and within a week was well of my cold and cough. Since then I have always kept this preparation in the house, and feel comparatively secure,"

—Mrs. L. L. Brown, Denmark, Miss.

"A few years ago I took a severe cold

"A few years ago I took a severe cold which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried Ayer's Cherry Pectoral, which relieved my lungs, induced sleep, and afforded the rest necessary for the recovery of my strength. By the continual use of the Pectoral, a permanent cure was effected."—Horace Fairbrother, Rockingham, Vc.

As soon as we were out of sight of the war which opened in the spring. Bands of stragglers were riding about the country, stealing and murdering when ever opened in the spring. Bands the lead. He seemed to take it as a matter of course, and he led off with a lope and held it for ever opportunity offered, and one day in October, while returning to the fort out a halt. I had not only to keep an out a halt. I had not only to keep an eye on him, but scan the country as missing horses, I encountered one of these predatory bands. It numbered as well he might be if his story was true, men, and a son of the Cheyenne and about 11 o'clock we approached the command. I had every confidence that the trees sheltered a band of redskins, and it would not have surprised me in the least to have seen a body of them dash out. I was therefore taken aback, at the end of about a quarter of an hour, to see Little Smoke reappear with a backload of stuff from his cache. He came straight toward me, but very slowly, and halted every few yards to adjust his burden. I was carefully watching him when my horse sniffed the air uneasily, and all at once it came to me that I was being stalked. I left the shelter of the cottonwoods for the open ground, and as I rode away two bullets zipped close to within 200 feet of me as I rose up. The leveled rifle brought them to a sudden opposite bank of the stream. At the opposite bank of the stream. At the ment they turned and descended the ridge to join the rest of the band. My visitor lay down, and ft was five minutes where the band was dressed. The paralysis did not improve for some time, but it gradually disappeared.—New York World.

The second attempt was made in De-cember.
