The Latest Invention of the Swindler.
 A swindler with a new game is working the town. He makes a tour of a street, calling at nearly every house. His game is to present a 25 cent piece and ask for change. He holds between his fingers a three cent piece and when the change is given him deviously exchanges the three cent piece for a dime and calls the house-keeper's attention to the mistake, which is rectified and he passes on to the next house. It is said his victims are many and he is making big money.

A Correction.
 EDITOR OF THE ADVOCATE.—In your issue of this date appears a reference to our unhappy church strife with which my name is connected in such a way as to call for a word of correction on my part. Your informant was, apparently, himself misinformed on certain points.
 1. The petition for equitable relief by myself and others, representing hundreds of ministers and tens of thousands of laymen, was brought in Cleveland, 1, and not in Columbus, Ohio.
 2. The lengthy scathing article from my pen to which reference is made, was not published in the Messenger, but in the Evangelist, of Harrisburg, Pa.
 3. My article was not a reply to the anonymous paper purporting to be published in Pittsburg. I have not taken in private conversation with friends, except my cognizance of the anonymous sheet, whatever, believing that the only treatment to which it is entitled is that of contempt. However since you have mentioned the affair in your columns, will you allow me to say to my friends among your readers, that no man more deeply deplores, than I do the fact that ministers of the Gospel should so far forget the dignity of their holy office as to enter into the publication of cartoons which would not be accepted by any reputable political paper. Res. Yours,
 A. M. SAMPSEL,
 Lehighton, Dec. 18, 1900.

Packerton Items.
 —Last Sunday's issue of the Philadelphia Times contains an interview with Jay Gould which will repay anyone reading it. While there are few, if any that approve of his career in the financial world there is no question of his general knowledge of finance and politics, he is opposed to the present tariff and the force bill, says the present unrest in financial circles is due to the meddling of a partisan Congress and in this he is supported by the business interests of the country. Dewey, Villard, Morgan, Drexel and others have so expressed themselves. If the President could divest himself of the idea that the people had great confidence in his ability, it is possible the country would have some legislation not labeled Republican policy authorized and insisted on by Benjamin Harrison, Reed, McKisler and Hoar.

—The "Ladies Aid Society" of the M. E. church of this place held a Bazaar in the school house last week, the weather was unpleasant but the evening yet the result was worth their effort, netting the sum of \$45.35. The "album quilt" upon which their best effort was centered brought the handsome sum of \$607.25. The society consists of Mrs. Clara Eyeritt, Miss Anabel McDanel, Kate Zimmerman, Martha, Clarissa, Emma and Gusie Eyeritt. These ladies propose to repair and beautify the church property and immediate steps will be taken in this direction.
 —A certain Judge this week sentenced a poor fellow to two years in the Penitentiary for stealing a duck and a can of tomatoes. The half starved fellow denied the accusation was tried found guilty therefore sentenced. In this age of high handed theft any comment is unnecessary. It is no wonder we have anarchists.

—The coal trade on the L. V. R. R. continues satisfactory—full time now, and the outlook for the balance of the winter is very encouraging.
 —If the present financial policy is to continue we won't be surprised to hear all who have a little ready money relating that the "Old Stocking Bank" is the safest place of deposit.

 —Major Bob Klotz is evidently getting desperate; he is now grooming four candidates whom he will test out against the present incumbent for the Frothingbury office. He don't care which of the four win so long as he is done up. Just as likely as not the people will have something to say in settling this question and it's two to one that Klotz won't be in it.

Bold Robbers.
 Sometime during Wednesday night burglars forced an entrance into the CARBON ADVOCATE office and J. L. Gabel's bad wardrobe. At the ADVOCATE office safe was blown open, in a manner which indicates the burglars to have been professionals about \$100, and a hat and overcoat belonging to the senior editor was secured and valuable papers destroyed; a gold watch was overlooked. At Gabel's the show case was robbed of a large number of revolvers, pocket knives, etc., and a money drawer carried away; the empty drawer was found near the Lehigh Valley Railroad early Thursday morning. Mr. Gabel's loss is fully \$200. The thieves had forced an entrance into Trelaxer & Kridler's carriage works and secured a number of tools which were used to blow open a large safe, driver belonging to that firm was found amidst the debris of the wrecked safe up to the hour of going to press there is no clue to the perpetrators.
