THE COURTS HAVE dallied with the L. C. & N. Co., long enough. They should new be compelled to build a new bridge ever the canal at Weissport-thus affording protection and convenience to the traveling public.

Nor GUILTY, but to pay the costs ! This iniquitious custom of the courts should be abolished and the sooner the better. If a man is not guilty he should not have the costs saddled on him. Let the Carbon county courts do away with this unfair method of justice. It is thoroughly wrong!

FOUR ESPREIALLY important problems confront us! First, constitutional enforcement; second, the purification of elections. involving ballot reform, personal registra tion and the prevention of the misuse of money in politics; third, taxation; fourth, municipal government. ROBERT E. PATTI-

Duning Governor Pattison's administra tion State loans jaggregating about \$5,000, 000 will become due. As about \$4,000,000 have been invested by the State in United States bonds and there is a surplus in the Treasury of nearly \$4,000,000, the deb law can be practically extinguished if there should be no change in the present system of taxation and no extraordinary expendi ture of mosey.

THE STATEMENT of county finances soon to be published will show that the old Com missioners, O'Donnel, Miller and Hawk, conducted the business affairs of Carbon county in an honest, capable and efficien manner, not withstanding the garbles cries of extravagance and dishonesty The bulk of the money expended was or bridge improvement,s and in this respec Carbon leads over all countles of its size in the state.

THE POLES Of Nanticoke, Euzerncounty, have formed a Polish Alliance and have decided to put a full ticket in the field for the municipal election, for the pur pose of securing control of the Chief Bur and school board.

These fellows want to be squelched and the sooner, the better it will be for the welfare of Nanticoke.

THE CIVIL COURTS of Lehigh county have decided that the people have no rights that the corporations are bound to observe. See, a railroad company run siding onto a public street in Statington and so close to the buildings as to effect the value of property, to say nothing of the danger and disagreeable part of it. The resident property owners sued for damages and the Civil courts of the above count decided against them. What are we com ing to?

AW EXCHANGE rightly bespeakes the situation when it says: "If the property of all sorts in the country were divided equally, every man, woman and child would receive about \$1000, representing an income of \$50 per annum. Immediately after the division was made a certain very large percentage of the population would begin to lose their share in various ways, and the other portion would begin to gather It in, as a strong magnet attracts from flings. Some people have a genius for making money and others have a genius or losing it."

Tun Legislature must apportion the State according to law. It has no alternative. The districts set apart for Congress- jan. 34-8t ional or Legislative representation must be contiguous. A Democratic or a Republican district must not be cut out of the map to suit this or that partisan purpose. The public has this idea in full view. Political advantage should have no place in the adjustment of the apportionment for Congress or for the Assembly. But it has, and the despest chicanery and consummate skill will be put in play to secure an adjustment that will help this or that party.

Tun manufacturing interests need have no fear that any harm will come to them through a reform of the tariff by the Democratic party. It seeks to encourage, not to restrict their growth. It would make them better able to compete with foreign nations in the markets of the world by glying them untaxed materials, thus putting them on a footing of equality in this respect with the manufacturers of other countries. The Democratic party pledged itself in the last two campaigns (and there is no indication that it proposes to change its policy) not to withdraw protection from any industry that had grown up under the tariff so long as it needs protaction; but it does insist, and will endeavor Is secure by its revision of rates, that the consumer shall share in the benefits which will accrue from free raw materials.

Laura Jean Libbey's Best. LA delightful love-story, full of passion and intrigue, and written in Laura Jean Libbey's best vein, entitled, "Ulmont Ulvesford," begins in this weak's New York Family Story Paper. The joint increase in the last two years has therefore been over 38 per cent. Our production in 1890 was about 1,200,000 gross tons larger Bank Street, Lehighton, Penna. than that of Great Britain in the same year, and it was about 600,000 gross tons larger than that of Great Britain in 1882 which was its year of greatest production Our production of pig iron in 1890 was larger for the first time than that of our targer for the first time than that of our European rival. The increase over 1889 would have been much larger but for the blowing out of many furnaces in December, caused by the stilke of the Alabama coal miners and by the financial stringency. The check in production which occurred in December has been continued since the beginning of the new year. The number of furnaces in blast on June 30, 1830, was 330 and on Dec. 31 the number in blast was 311. Since Jan. 1 at least twenty more furnaces have blown out.

The increased production in 1800 over 1889 was well distributed throughout the leading pig iron producing States, although
