Lehighton shut out Allentown in a spiritless game Saturday—the score standing 12 to 0. The features of the game were a home run of Jennings and Lehigh's pitching.

The executive committee of the base ball association has decided that, commencing with the Decoration Day games, ladies must pay an admission of ten cents—they will then be entitled to grand stand privileges free.

The strong Wilkesbarre club will play here Saturday. They are the winners of five straight games and are meeting for the United States series at Middle Coal Field. This is the strongest team Lehighton has tackled this season and the sporting people can look for some hustling.

When, but Ferey's Maid. Let it be distinctly understood that this paper gets no fact or following. This is official and if you want to bite off some of it go ahead and help yourself.

If it is in order now to make suggestions the Association would ask that the building be of a very substantial one in every particular.

There is no safeguard like a local newspaper. Nothing conduces so much to keep up a town and help business, and merchants and business men should give them the preference. Yet frequently the only returns the papers get for their services are criticisms from those who have benefited both directly and indirectly.

On Friday night of last week Geo. M. Henry, of Lehighton, was driving along Third street when his horse was precipitated in a trench dug across that thoroughfare for the purpose of making water courses. Then he writes that he will send an agent to examine the premises (the place seems to be just what he desired). If the farmer will remit a sum to pay agent's expenses, Any intelligent farmer will take such a letter as a warning and not answer it.

Rev. Ira Hicks, the weather prophet, predicts a drouth the coming summer, which is to begin in June. Mr. Hicks has heretofore made up remarkably accurate prophecies respecting the weather that we may well have cause to regret that his horoscope is so small as to put forth his latest forecast. Prophecies are to be given to him more than excessive moisture. Still, there is hope left. Perhaps our section of country may escape it.

A BIG FIRE.

Fire. A large fire broke out at 10:30 P.M. at the Lehigh Valley Store Clothing Hall, Mauch Chunk.

At ten before twelve o'clock Monday morning clouds of black smoke were seen issuing from Nathan Snyder's large planing mill along the canal in Franklin township, and a few minutes later a bright, lurid flame shot from the gable end of the mill, soon spreading its entire length and enveloping the building in flames. The greatest excitement prevailed—the wind blowing northward threatening the destruction of the whole village. A few minutes from the time the fire was first discovered two streams of water were playing on it from the steam pump connected with the mill, and a little later Joseph Ober's portable pump engine was on the scene with a score of willing hands to work her. This, practically, saved the destruction of the village, and Mr. Ober can not be too highly praised for the quick manner in which the machine was placed at the fire. The flames soon spread to the lumber sheds, then to the stables of Aaron Snyder and Joseph Ruch, sweeping everything in its way with devouring handihood. Several times Snyder's big store building and residence was on fire but a steady stream of water from Ober's machine soon quenched it. The wind not shifting more to the east sent the sparks whirling in that direction and just at that time the steamer from Mauch Chunk was unmoored from the canal and ran to the scene where they soon had things in control, but not until Daniel Ober's fine residence, occupied by John Nothstein, was ruined. The men worked like teams at the pump and only quit when exhaustion compelled them to, and so with the bucket brigade—men full prostrated while carrying water to the little portable pump that has twice saved the village from destruction.

The Snyder mill was one of the largest in this section of the state, being of frame two and a half stories high, 40x165 feet in dimensions. It was fitted up with all the latest improved machinery and the storage room contained thousands of dollars worth of finished work. In the three lumber sheds destroyed with contents were piled 200,000 feet of unfinished material. Mr. Snyder's loss is not more than \$50,000. The mill was insured, Joseph Ruch's stable, barn, no insurance. Aaron Snyder's stable, together with contents, was insured for \$10,000. The Northampton Fire Insurance Co. of Philadelphia, fully insured the hold furniture of John Nothstein, fully insured with the American of Philadelphia. There were other buildings in the neighborhood damaged by the flames and smoke, but they were not material the loss being very light.

NOTES BY THE WAY. Harry Swartwood, of Lehighton, was doing good work with the hose when he fell from the ladder, and sustained serious injuries. He is still very low.

The "boys" with the steamer, from Mauch Chunk, did not get on shore until their prompt arrival and the work they did.

The Ober's deserve a word of praise for the quick manner in which they placed their machine on the ground.

The bucket brigade and the boys at the pump worked like heroes and are to be complimented for their efforts.

The editor and printer of this paper kindly acknowledge their treatment and tender thanks. Every Christian woman should be a King's Daughter.

Miss Gertrude Horn, Alex Graver, Oliver Trine, Lewis Werner, John Hansman, Elmer Reed and several others have left from their school and labor. They have all recovered.

A boat passing up the canal caught fire and was badly burned, and would have been lost had it not been for the quick action of the fire department.

The fire that swept the same corner occurred four years ago—next October.

Grandmother Connolly, aged 110, the oldest resident of the region, was taken to her final rest in her home at Beaver Meadow Saturday night. She had no living relatives, and for twenty years past lived on charity of the people of the village, refusing to be removed to the Almshouse, of which she had a great dread, so that an exchange. Recently she became so weak that she could not leave her home, and she was removed to the Almshouse, where she would receive good care. The old lady suspected the arrangement, and she refused to go to the proposed indignity she set fire to the bed clothing upon which she lay and was burned to a cinder.
