A COLUMN OF JUMBLES.

Original and Clipped. Little Matters of Interest that are Worth the Reading.

Weatherly will enforce the blue laws of 1791.

Englemann, of Weatherly, will run Lehigh, of Wilkesbarre, a 125 yard race for \$100.

Judge Meadison, of Lower Town, is again able to be about.

Larry Tarleton, one of Weatherly's popular Democrats, is for some weeks past with inflammatory rheumatism, is again able to be about.

The Presbyterian church at Beaver Meadow, built way back in 1855, when that village had the promise of greatness, is to be sold to the highest bidder.

John H. Moyer, clerk for E. G. Rouse, at the Weatherly car shops, died suddenly on Saturday morning. He worked the night previous and appeared to be in good health.

It is in season for those of our subscribers who are in arrears to pay up. It is hardly necessary to say that we are in need of funds. Come, hustle along.

The old canal bridge has been painted a beautiful red. If our people do the right thing they will petition the June court to have the old ditch trap removed.

The Rickettsville base ball club tackled the Mackerevilles on Sunday afternoon, and after a terrific struggle wound up the game 10 to 15 in favor of the Rickettsville.

With but one or two exceptions everybody in this town aimed the pistol for unadmitted electric lights for street illumination and they got a smoky coal oil lamp are to be relegated to obscurity. Bully for Weissport!

The Germania Sangband, of Lehighton, will give a concert at the Daniel Graver on Thursday evening last, the event of his 30th birthday anniversary. This organization rendered a good service to the community and in return were royally entertained by the general Dan.

Rev. Laury, of Broadheadsville, will fill Rev. A. Huber's charges at Parryville and Big Creek on next Sunday—at the former place in the morning, and at Big Creek in the afternoon.

The people of this town and Franklin county are seriously agitating the water question. They want to keep it up until we get a good supply of the needed. The Carbon County Improvement Company have made a proposition to bring water into town and it would be well for our citizens to give it the most careful consideration.

During this week a subscription list was made by Franklin for the purpose of raising funds to pay the expenses of the Marion Hose Company, of Mauch Chunk, who lent their services to the fire on the 11th of May. The thing in the neighborhood of \$100 was raised by Joseph Rex and John Miller who had the matter in hand.

Our borough Council have decided to submit the question of a "Water Tax" to the voters of this town, at a special election to be held for this purpose, on Tuesday June 9th.

This election will afford our citizens an opportunity to direct the use of money they pay in the form of "Borough Tax" is to be applied; heretofore it has been the custom, to use the money for the purchase of land on the assessed valuation (except last year, when it was thirteen) 10 mills for general borough purposes, and five mills for "Water and Light" thus appropriating all the taxes to a definite and specific object. While under this law Council would have the authority to levy an 8 mill tax, but no more, thus making the total borough tax on the assessed valuation for many years, 15 mills, it is the intention of Council to levy a 5 mill tax for this purpose, which will afford ample revenue for some years to come.

Council dare not, under any circumstances, use the "Water and Light Tax" for any other purpose whatever, than the erection of fire plugs or hydrants, the maintenance of a fire department, the purchase of hose, and for the lighting of our streets. This is a matter that concerns every taxpayer, and especially those who own their own houses, in that, while our borough taxes will be lower than they have been, we will have ample and effective protection in case of fire, and our streets will be lighted with electricity. The prompt and efficient service of the fire boys of our town, and Mauch Chunk, at the Snyder fire, no doubt averted the most disastrous conflagration this section has known, and it becomes us to progress for fire, when there is no fire; there are a number of places in this town that are veritable tinder boxes, and if a fire should ever break out at those points, nothing but a good supply of water, and well organized and fully equipped fire protection, or service, would save our town from almost total destruction. In this measure our councilmen have struck the key note of economy and progress, and it becomes the duty of every citizen to favor the lower taxes and protection from fire, to vote for the Water and Light Tax.

New Things in Jewelry. Here are a few new things in silver goods just displayed to-day at E. H. Hohl's Mauch Chunk: chafing dishes, orange spoons, nut bowls, soup tureens, coffee, cream, game and coffee forks, crumby scrapers and trays, a set of 100 silver, low water tins, soap boxes, liquor flasks, pearl handled fork and spoons, cut glass, and berry dishes, hot iron trays, and tongue and many other things too numerous to mention. Don't buy until you see our new stock.
