

The Carbon Advocate

LEHIGH VALLEY, PENNA.
PUBLISHED WEEKLY
SATURDAY, JUNE 12, 1891

JUDGES will be elected this year in the following districts: Lancaster, Northampton, Northumberland, Dauphin and Lebanon; Bedford and Somerset; Union, Snyder and Mifflin; Schuylkill, Blair, Juniata and Perry; and in the Cambria district. An additional judge will also be elected in Luzerne county.

AT WEATHERLY the other day a chap was fined \$2.00 for blocking a street crossing. In this town every street and alley could be blocked and you wouldn't be fined.

O. A. CLAIBORNE, a prominent young Democrat of this city has entered the contest for Prothonotary and Clerk of Courts. Oliver is well known all over the county and intends to make a thorough canvass for the nomination.

A CENTRE COUNTY distiller advertises his whisky as "food for the body and brain." A regiment of people here afterwards would be pleased if all landlords could also brand. And if the distiller can also brand the "general conscience" that is in the stuff, it will become as popular as circus lemonade.

THERE IS WANT a city and town that will appreciate the following: One manufacturing employing a hundred men will support an additional 500 people. Three hundred families will disburse annually, on the average, \$800, or \$75,000 in the aggregate. This money will be drawn into the town from the outside, where the manufactured goods are consumed, and the interest of this \$75,000 at ten per cent, would be \$7,500. Three hundred families, too, would require three hundred houses, thousands of pounds of agricultural produce, and thousands of yards of cotton and woolen goods, thus giving health and impetus to every branch of industry.

ADVOCATE EXPRESSIONS.
There are entirely too many boys in this town who get drunk.

Lehigh, like a goodly number of other towns, has a lot of people who want to see their place of residence progress, but they are always trying to clog the wheels of the old vehicle that moves us along. Why is it?

Jimmy Malloy, of Lansford, is against George Esser because he doesn't get all he wants. Malloy is another one of the gang who is always after something in politics.

The L. C. & N. Co., like all other corporations, has an idea that "they are the people." The court should compel them to build a new bridge over the canal at Weissport. If the court fails it is equally responsible for any damages sustained.

Weatherly people are getting onto themselves. The borough laws are enforced and there is no trifling in the transaction of town affairs. Lehigh should follow in Weatherly's foot steps for a while.

Bills Signed by the Governor.
The governor approved the Boyer Tax bill and the act creating a State banking department with a superintendent at \$4,000 a year. Among other bills signed are the following:

Permitting any person having a contingent interest in or a mortgage or judgment lien upon any real estate, and not being in possession of the same, to prosecute a suit at law or equity to prevent waste upon the real estate and to recover damages for waste.

To repeal the prohibition law in Jefferson Township, Allegheny county.
Authorizing councils of all incorporated boroughs to widen and deepen the streams and water courses and to erect dykes and embankments.

Requiring a permit to be secured from the proper board of health to cremate human bodies.
Providing for monthly returns and payments from collecting of State, county and poor tax.

To prevent fraud in the sale of land. Providing for the recovery of bounty-ties due soldiers for enlistment in the service of the late war.
Providing that any corporation shall, notwithstanding any limitation upon the amount of the capital stock, or special or general law, have authority with the consent of the persons holding the larger amount in the value of its stock, to enlarge the objects of its incorporation to the amount of \$100,000,000 in the aggregate.

Appropriating \$10,000 to complete the publications of the geological survey.
Appropriating \$12,000 to pay current expenses of the State Board of Health.

Providing for the formation of a commission to present before Congress the claims of the citizens of the border counties for losses sustained during the war, appropriating \$3,000 for expenses.
Extending the jurisdiction of the courts in cases of divorce to women who may have left their States and later married with citizens of other States or foreign countries and been compelled through cruelty or other causes to abandon their husbands.

Providing that the capital stock of street railway companies, operating other than by animal power, shall not exceed \$100,000 per mile of track.
Securing the right of sub-contractors to file mechanic's liens and preventing interference with this right of contract.

Compelling county commissioners to furnish office and storage room for county school superintendents.

Gifts for Graduates.
We have received a special selection of goods suitable for a pretty present for graduates, call and see at E. H. Hohl's, Jewelry Store Mauch Chunk.

Frightful Accident.
While walking on the Lehigh Valley railroad between this town and Packer-ton Monday evening about nine o'clock, a strange man, supposed to bear the name of Patrick McNulty, was struck by engine 302 and instantly killed. The dead man was badly mutilated, but it will be an impossibility for his friends to recognize him. His head was washed almost to a jelly, his arms and legs were severed and his intestines were scattered over the track. The remains were taken to Mauch Chunk depot where Squire Boyle expounded a jury and heard a number of witnesses, but making particular was overlooked. The unfortunate man was well dressed, wore a silver watch and a I. C. U. B. badge pinned upon his vest.

New Silver.

Asparagus forks, orange spoons, orange knives, hot bowls, pudding dishes, tea water sets, salad dishes and silver serving sets at E. H. Hohl's Mauch Chunk.

Newspapers and Their Friends.

A newspaper, if it has any brains, conscientious and muscle back of it, must continually decide between doing its duty and injuring its pocket. In any position but that of an editor-the public concern, whose principles he defends, is not a friend of the former paper.

Lehigh Valley railroad company declared the usual quarter dividend of one and a quarter per cent, payable on July 15.

Julia Dooms, of Nanticoke, on Saturday commenced suit against the Lehigh Valley Railroad Company for \$20,000 damages for the death of her husband, John Dooms. He was employed as a brakeman on the Valley road and about a year ago, while standing on the top of a moving freight car near Catawiqua, was struck by a low bridge, knocked off and killed. Mrs. Dooms is the mother of a large family.

John MacDonald, Canada's Prince Minister is dead after long years of usefulness to his country. He was to Canada what Lincoln was to America. He leaves no successor.

The Great Guns of the Japanese Navy. The attention of naval and military authorities has been strongly drawn of late to the remarkable progress in the effective power of the heavy guns of English make and those of the French. The 110 ton guns of the English navy, constructed at immense cost, represent the latest and most formidable type of armament which Britain has produced.

The calculations of the makers could be realized in practice, the power of these guns would be astonishing. They are 43 feet 8 inches long, 16 1/2 inch bore, intended to sustain a charge of 960 pounds of powder, carry a projectile of 1,800 pounds, with a muzzle velocity of 2,125 feet per second, equal to penetration of almost 94 inches of wrought iron. Several trials of these guns have been made with charges much below the maximum, and in every instance the guns have been so much injured as to render it dangerous to subject them to full tests. The latest trial was that of the 110 ton gun of the war ship Sans Pareil, at Shoeburyness, with a moderate charge of powder. The result was the bore of the gun was found to have dropped, and also to have become laterally deflected. This is much to be regretted, for the gun is a magnificent specimen of mechanical construction.

In France the great company known as the Forges et Chantiers de la Mediterranee, at Havre, under contract with the Japanese government, have produced some large cannon guns for the war vessels of that nation, which must be conceded to stand at the present time in the front rank. Japan may be said to beat the world in the actual power of her heavy guns. They have been subjected to the severest tests, no expense having been spared in these trials to render them sure and effective. Each round fired cost \$2,000, and some \$40,000 in all were spent for the purpose. These guns weigh 66 tons, 12 1/2 inches bore, 41 feet 8 inches long, maximum weight of projectile 1,854 pounds, powder charge 960.2 pounds, muzzle velocity 2,082 feet per second, penetration of wrought iron 45.16 inches, maximum range over 13 miles. Twenty rounds were fired without the least injury to gun or carriage. These are wonderful results, and show that the French makers have advantages above all others.—(Scientific American.)

The hat trust is nothing new. If dealers hadn't instituted hat trusts some time ago, a good many young men would have been going around bareheaded.—[Boston Post.]

Administratrix Notice.

Estate of Rouben Fenstermacher, dec'd, late of the Borough of Lehigh, County of Carbon, State of Pennsylvania.

Letters of administration having been granted to the undersigned, widow of the late Rouben Fenstermacher all persons knowing themselves to be indebted to said estate will make payment in 30 days from the date hereof, and persons having claims will present the same in proper form for settlement.
