The New Registry Law.

The assessment and registration of voters this year will have to be made in accordance with the law passed at the closing days of the recently adjourned Legislature and approved by Governor Pattison last Friday. One of the benefits of the new law will be the making of an entirely new assessment and registration list each year. The old system of taking the list of voters in one year and adding such names as might be brought to the attention of the assessors, is to be done away with entirely. Under the law the assessors are required to visit each dwelling house in his election district on the first Monday of May and December of each year, or as soon thereafter as practicable, and ascertain the list of the names of all the voters of each dwelling house consecutively and in groups. That is, the names are to be entered on the list in the order in which the houses are visited, and the qualified electors are to be grouped by houses, streets, alleys and courts. All the voters in one house must be grouped by alleys and courts, so that it will be possible to find the number and names of voters in any given house or street in a precinct without going through an alphabetical list to pick them out.

The assessor is not to assess any person until after careful inquiry of the voter himself or of some known resident of the election district or division and the name and residence of the person so inquired of must be entered in the assessor's book opposite the name of the voter inquired about.

Under the law, any assessor who shall knowingly assess any person as a voter who is not qualified, or shall wilfully refuse to assess anyone who is qualified, is liable to punishment by imprisonment not exceeding two years and a fine not exceeding \$1,000.

The morning session was called to order by the president, Capt. E. H. Rauch, of the Democrat. The minutes of the previous meeting were read by the Secretary, H. E. Brock, of the Lehigh Valley Comet, and approved.

The first question discussed directly concerned communications whose purpose and tenor formed the basis of persons seeking political preferment. Articles of this nature in which a particular person's qualification for a certain office, position, or honor, was discussed were considered advertisements, and the general opinion was that they should be paid for. No decided action was taken on this question. However, the session adjourned at 11:30 o'clock for dinner.

The downfall of E. R. Slawers is certainly to be regretted, if for no other reason than the maintaining of a name for a half century honored and respected, and the disgrace to an old mother, wife and daughter. Slawers is not to be pitied, he was a man of strong will and keen perception, and might have anticipated the inevitable result of his crime. Nothing so far developed in his downfall shows aught for commiseration, but much is shown for his condemnation and punishment.

Samuel Alexander, for the past year division passenger agent of the Lehigh & Susquehanna division of the Central Railroad of New Jersey, has tendered his resignation to the officials of the road, to take effect on June 1. He will shortly leave for his home at Hartford, Conn., and after two months' recreation will control one of the largest and most important theatrical productions as manager next season, for which he has already been engaged. In Mr. Alexander the Central company passed an excellent and trying official. He is a popular gentleman and has long been a credit to the district who will regret to learn of his sudden departure.

To the long list of self-murderers is added that of Christopher Little, a well-known lawyer and insurance agent of Pottsville, and District Deputy Grand Master of the F. & A. M., in Schuylkill county, who was found dead in bed, having taken his life by shooting
