THE METHODIST ADVOCATE speaks out time our country needs a religion that will make a man pay his debts. Shouting don't settle old debts. Shouting don't settle old accounts with God or man. We want to bounce right on a fellow and put him out of church if he goes to a ball or theatre, but never say a word to the pious scamp who never pays his debts. Preachers and people who never pay their debts are doing the church more harm than dancers or drunkards, for there are more in the church than elsewhere. Reader, we are getting pretty close to you. Then lay down and go and pay up, and you can read at ease. And don't stop paying because the statute of limitation excuses the open account which you made for bread and meat. You must pay in each or God will make you pay it in fire and brimstone. God knows no such excuse as home-exemption. When you raise that excuse to keep from paying your debts you can stop singing 'When I can read my title clear. "You've got none up there." Ye delinquents heed the Advocate's voice. It's

But it there must be something radically wrong when a crowd of their kind can be had to work together. Next year a President and Congressman are to be elected and if the Klotz ring wins they will have a large patronage to dispense, if Esser comes out a head his followers will hold the matter in their hands. This is the whole business and Klotz—Cassidy is willing to sacrifice a good official that they attain their own ends and get even in their personal hatred to George Esser. You will find that I am not far wrong when I say that the people won't tolerate filentian from a set of fellows who have no better end in view. George Esser will certainly be the next Prothonotary. He has made a good official and the Democrats should keep him there. Those of the people, and there are a good many, who know how the combination is working, denounce them as they justly deserve.
