The town of Lansford is built upon a ledge of limestone, which is naturally owned by the company, and the title deed for every lot sold, contained a proviso that no liquor shall be vendued with or without license on the premises, the further provision being inserted that in case of violation the property shall revert back to the company.

The order has caused intense excitement, and the landlords are consulting attorneys and will resist in every way the efforts to oust them.

Governor Pattison was asked if any action had been decided upon by the Administration in connection with the recent developments in the Bardeley case, and also if he had received any communication from Auditor General McCamant in reference to his alleged connection with the rebate division.

I can assure you this," continued the Governor, "that civil actions for the recovery of the State's money will be instituted and pushed until the resources of the law are exhausted, and, further, that every person who is criminally connected with the affair will be criminally prosecuted."

Weatherly wants a fire company and a national bank, and also, wants the town to own the water works. That town has some snip.

Towamensing boasts of having a man aged 74 years who works every day for the Valley Company in the blacksmith shop at Packerton.

The Laurytown poor house is getting a new steam pump from the Stroh Foundry, Mauch Chunk. We thought that institution had enough suction.

This is the version of a West Penn snake story. A farmer named Bohler was unloading a wagon load of hay the other day, when a monster black snake crawled from the wagon and entered his boot leg, winding itself around like a garter. The snake was killed. St. Peter will do some close questioning about that snake racket on the day of judgment, or we loose our guess.

Henry Johnson, who was employed as engineer on a "lockie" at Coxes Bro's & Co's Beaver Meadow colliery is at the Hazleton hospital suffering from a strain accident.
