Desirable for Ladies.

The new Fashion Journals published by A. McDowell & Co., 4 West 44th street, New York, are again on our table.

The superiority of these journals is abundantly shown in every page. "La Mode" is the smallest of the three, and is intended for family use. It has many styles for children, and is only \$1.00 a year, or 15 cents per copy. "La Mode de Paris" is an elegant journal, filled with everything of the latest style in Paris. This is a great favorite with the ladies who wish to keep posted in the new styles as they come out.

"Album des Modes" is also a popular Parisian publication, many ladies giving it the preference. It is replete with such styles as are patronized by the mid-dle classes, its designs being neat and plain, and its journals claim to give the earliest fashions and they are all printed in Paris. They contain season in practical dressmaking, which are of innumerable value and easy to understand. "La Mode de Paris" and "Album des Modes" are only \$1.00 per annum, or 15 cents a single copy. Samples can be obtained from the publishers at single copy price if there is any difficulty in obtaining them from newsdealers.

RAILROAD RUMBLINGS.

A disgusted passenger train brakeman says: "If passengers would only be a little more particular to observe the rules in entering and leaving a train they'd not only save us a great deal of time, but ladies and children would receive better attention. They should always enter by the rear door of a car and get off at the front. This would prevent confusion and prevent the loss of much time."

Say, can't you get your neighbor to subscribe for this paper, and stop borrowing yours? It beats the printer out of that much every time. Every family should have its own newspaper.

THE HERSH FURNACE COMPANY.

One of Lehighton's Thriving, Fishing and Amusement Resorts.

One of the most enterprising and thriving manufacturing industries in Lehighton is the widely known Hersh Furnace Company.

This company have succeeded after years of untiring energy in establishing a trade for their furnaces in a great many sections of the country, and now have a reputation second to none in their specialty.

They have, during the past two years, added a new line of furnaces to their list, the "Lehigh," having met with a very great success. It is a furnace constructed so as to gain a large amount of heat radiation from a small quantity of fuel. It is free from gas and dust, easily managed, low in price and very durable.

The volume of business of this company has largely increased with each succeeding year, and this year more so than ever. They have recently extended their facilities for turning out a greater number of furnaces, and are now prepared to further increase their growing business. In connection with this, we are informed that the business of the company for the months of July and August are more than double what they were for the same months last year, which indicates the growing popularity of their make of furnaces and a lively fall trade.

Fire Presentation at Packerton.

M., of this city, marched to Packerton and presented the National stars and stripes to the new public school in that place. The commodious school room was well crowded with the best people of the community who found much pleasurable interest in the following well arranged program: Reading of the scriptures, P. C. Joseph N. Bennett; singing, "My Country 'tis of Thee," by members of the order; music, Arion Cornet Band; presentation of flags, P. C. George W. Mortimer; acceptance of flag, secretary of the school board, A. F. Deffenderfer; music, Arion Cornet Band; closing ode, by members of the order.

The parade was ably marshalled by O. Frank Aecker, one of the liveliest and most energetic members of old Lehigh. The boys made a very creditable appearance and are to be complimented for their good work.

He's Manager of an Opera House.

Everybody, that is the younger generation, remembers B. F. Voght, late of Weissport, and at one time a clerk for the Lehigh Valley Railroad Company in the offices at Packerton. He is now well located in Bona Vista, a live and growing town in the state of Virginia. Of him the Bona Vista Advocate has this to say:

"Mr. B. F. Voght has taken charge of the Opera House, as manager, and has several fine attractions in store for our amusement-loving people during the coming season. Our population is sufficiently large to sustain the Opera House, and the management is determined to keep step, as far as possible with other towns in presenting meritorious attractions."

It Always Pays.

It pays to advertise when you have something to sell and want the people to know it.

It pays to advertise when you want to start a business and make the business profitable.

It pays to advertise when business is dull, for then you are sowing seed of future prosperity.

It pays to advertise when trade is brisk because you are strengthening the very roots of your business for the dearth that may come.

The Strategy of an Ass.

It has come to our ears that the opposition in this campaign have used the Editor's name in a disrespectful way. We hope our information is incorrect, for it would worry us to learn that we have been referred to in any but the softest manner. We're so thick-skinned, you know. Treat us gently.

Lansford Record.

IN A FEW WORDS.

A Lively Writer Tells the Story of the Happenings of a Week in and About Old Carbon.

Lehigh Gap and vicinity is the most picturesque spot in the Lehigh Valley.

At many of the cross roads in the lower end of the county there are no index boards. They are a public necessity and should be supplied.

The enterprising people of Beaver Meadow are still in the struggle for the honors of a borough. Beaver Meadow is the oldest township in the county.

The people of Weatherly think of buying the water plant in that town. It is said that the profits of the company are immense, and accordingly there may be a disposition among the stockholders not to sell.

Our old friend William Wehr, of Wehr Post-office, writes us that Wm. Mauch of Schuylkill county, has a car stalk fourteen feet high. Mr. Wehr is anxious to know if there is a Carbon county farmer who can beat it. Trot out your persimmon.

The Schwanawert Club, of Allentown, is at Long Pond, in this county, on its twenty-fourth annual trip. The party is composed of A. S. Waller, A. Berger, Charles Wolfe, Lewis and C. W. Grammes and Jacob Wandel. They will be out ten days, and they expect to do some fishing.

It often happens that "chickens come home to roost," hence those who meddle with other people's business and try to make trouble often get a dose of the same medicine they prescribe for others. The mills of the gods sometimes grind slow, but nevertheless exceedingly fine.

Constable Boyle, of Hazleton, was at the Jeaneville striping the other day to arrest tough "Bully Walker," an Italian boss, charged with shooting a man in the former town. The Italian got a glimpse of the officer, and suspecting his errand, escaped to the woods. The dusky son (of-a-gun) of Italian sunshine is still at large.

The new school house at Packerton was opened the other day with thirty pupils in attendance. This lively little tail end of a big township is growing, and it's a wonder her people wouldn't show snap enough to throw off her swaddling clothes. They want to be an independent polling district, but why not take first honors while about it.

There was a lively Italian shooting affray at a place known as Spring Tunnel, near Lansford, the other day. One Italian was shot by another, inflicting a painful if not dangerous wound in the face. The bullet entered the mouth and passed out through the cheek. The Italian who committed the deed took to the mountains and has not been captured yet. The man wanted is five feet six inches tall, dark complexioned and has black whiskers and mustache.

Martin Gallagher, of Penn Haven Junction, met with a serious accident Friday. He and others were seated on a hand truck which was mounted on a railway tie alongside of the railroad and near the river, when the ties suddenly gave way and Martin was unexpectedly thrown down the steep embankment into the river. He was taken to St. Luke's Hospital, South Bethlehem, where he will be treated for a broken head and a badly bruised cranium.

WEATHERLY.

Jackson's Combination Show exhibited in town on Tuesday evening.

Daniel Ross left on Tuesday for the Democratic State Convention at Harrisburg.

Slatington, heretofore famous for its excellent quality of slate, seems now to be more famous for its luscious peaches.

A new passenger engine is in course of building at the Weatherly shops. It will take three weeks yet however before she will be ready for service on the road.

Messrs. Aahel Hoffecker, S. A. Croll and A. H. Horlacher were on a pleasure trip to Slatington on Sunday. From there they were taken to some of the beautiful peach orchards of Lehigh county.

Our music loving people will have an opportunity to hear some good music on the 12th instant. A musical combination of town will render the cantata, entitled "Joseph's Bondage," in Cassler's Rink on the above date.

Peaches! Peaches! Any quantity of luscious peaches were sold here last week for one dollar. Great in the market is the cause assigned for the unprecedented low price realized for such fruit.

Our public schools will open on Sept. 8, for a nine month term. Three new teachers have been engaged for the coming term viz: James Long of Reading, Minnie Friedenberger of Tanquesha, and L. Irene Stager of Audenried.

Hissing on boys to fight seems to be a favorite diversion for some of our pseudo-good people. The writer witnessed just such a thing on Tuesday. It seems to me that these people could cultivate at least their own perverted feelings by encouraging things more snubbing and retarding.

He's in Trouble Again.

Charley Johnson, who has completed an eighteen month term in the county jail for collecting newspaper subscriptions in Carbon county, claiming to be a representative of the Coal Gazette and Democrat at Mauch Chunk, went to Weatherly Thursday morning and hired a horse and buggy from Kistler's livery stable stating that he wanted to drive to Hudsonsland. He took a young man from Weatherly into the buggy with him. When they arrived at Garra's hotel, Quakake, he instructed the young man to await his return and also told the proprietor to give his companion what drink he asked for, that he would meet the bill on his return.

He has not returned and the police are looking for him. A postal card, without a signature, was received at Weatherly Monday morning, saying that the horse was at Fair View. A party was sent to that place. Johnson had been in town a few hours only when he hired the horse, and was unknown to the livery man. No reward is offered for the return of the horse, the thief seems to be the object of the search.
