TREIR DAYS ARE NUMBERED. As a proof of the extent to which the opposition of the Regular Democracy are forced, it is only necessary to refer to the effort making to soft soap intelligent people with the plea that, because the State Convention refused to recogwhen the contemptible methods pursued by this very combination to secure the vantage of recognition from a State organization that has put itself on a level with the same element of corruption and fraud that disrupted the late meeting of the County Democracy. The action of those who term recently, Judge Rockefeller gave notice themselves the combination was not a that hereafter applicants for naturalisudden, unpremeditated movement, zation would be compelled to have a but was the arrangement of weeks and general knowledge of the constitution months of deliberrie study. The coun- of the United States. The action of ty organization was in the hands of the the court in reference to this matter combination, and such unscrupulous will meet with general approval and is leaders as Mickey Cassidy, Robert certainly commendable. The man who Klotz, E. H. Rauch, et. al. were not long desires to become a citizen swears alleto take advantage of this. They laid giance to the United States and it is the plansand their hirelings perpetrated no more than right that he should have the job that has brought disgrace on some conception of the fundamental the party that lives on the foundation principles of the goverment which he of civil liberty—a government for, with desires to adopt. Every judge in the and by the people. Although they represented but a third of the number in adopt the same rule and the class of the county gathering, Mickey Cassidy citizenship would steadily better itself with superlative coolness and daring audacity determined to have full sway, and he succeeded by the exercise of a gag law that puts the world-famous Tom Reed to shame. But did he gug the majority? Hardly! for the outburst of feeling from all points in the county at once showed the people that such methods were contemptible and abortive to public good, and now the combination stands almost alone in its own disgrace. Many people who were misled in the issue of Esser and Clauss now see that the fight of the combina tion was but to secure control of the Democratic county organization and to reap the benefits therefrom should the Democracy elect their Presidential candidate in 1892. This is plain to the public who saw the combination desert all other candidates at the last moment but one, while to each their promises were plenty. But shall a combination which stoops to such methods of hypocrisy, fraud and corruption representhe Democracy of Carbon county? Most certainly not! The people have too much respect for the fair name of their party to place its fate in the hands of such men who care little for its welfare, but much for their own ag grandizement. No, the plans of the combination of hypocrital purifiers are

BOW DOWN, YE SLAVES.

Investigation now under way promises to disclose in a short time some of the tyrannical methods pursued by a corporative power not a thousand miles away. It will show how men who have manliness and courage to assert their rights, and thus rise above the common level of mere slaves, are hounded from one place to another while their families are made to suffer. It will show the contemptible methods mill, 12x44 feet. will show the contemptible methods pursued to choke off and strangle men who are independent, to crush the natural and inaleinable rights and privileges of the class who eat their bread by the sweat of their brow. What are we coming to? we may well ask, when natural ambition, when the push and fire of life must be kept at slow heat by the power of corporation rule. Is it any wonder that business suffers through strikes and kindred ovils resultant from corporation victouaness?

You answer no, and it is taken up and echoed all over the land. Let us hope that all things will bring about an equitable adjudication of the threstened troubles and that peace and har.
