IRON HORSES DERANGED.

AN OLD ENGINEER DESCRIBES THE WHIMS OF LOCOMOTIVES.

If a locomotive gets a bad name the fault is not in the engine but in the driver. The driver is the one who is responsible for the condition of the iron horse.

Pleasant Pellets

As good as new—that's the condition of liver, stomach and bowels, when Dr. Pierce's Pleasant Pellets have done their work. It's a work that isn't finished when you've stopped taking them, either. It's lasting. They cure, as well as relieve. And let's all have a little of it. It's a little of the violence that went with the old-time pill. One tiny, sugar-coated Pellet's a gentle laxative—three to four act as a cathartic. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are prevented, relieved and cured. As a Liver Pill, they're unequalled. They're purely vegetable, perfectly harmless—the smallest, cheapest, and easiest to take.

They're the cheapest pill you can buy, because they're guaranteed to give satisfaction, or your money is returned.

You only pay for the good you get. Can you ask more?

That's the peculiar plan of Dr. Pierce's medicines are sold on.

RHODE ISLAND'S BIRD GONER.

The bird goner of Rhode Island, Herrick, who has produced such marvels in ship building, comes to have made a revolution in yachts. It was considered that his specialty lay in steam vessels, since the queer looking Siletto created such a surprise on the waters in New York Bay. It was said that the blind inventor could not duplicate a wonder. His reply was the production of steam yachts still faster than the Siletto. To prove this theory more conclusive he built a cutter according to many respects to the English cutter type, without the centerboard, and he capped all other experiments in yacht building. The bird goner of Rhode Island should be secured by the Navy Department to make designs for its new cruisers.—Albany Argus.
