

The Carbon Advocate

LEHIGHTON, PENNA.

Table with 2 columns: Name, Amount. Includes Charles Nelson, Auditor's Notice, etc.

It is with you that we are interested in the... SATURDAY, DECEMBER 10, 1901.

Don't Miss Circulation Larger than that of any Weekly Newspaper in the County.

THE CASE OF MR. SNYDER WITH THE CARBON ADVOCATE.

For many years, perhaps from time immemorial it has been the unwritten law of a great many people to get all their news from the newspapers in the way of advertising at a free rate.

The Carbon Advocate was not excluded from this universal rule as a review of our columns will prove, for instance in the year 1880 we published gratuitously 110 lines of purely local advertising at a cost of \$14.00; in 1890 we published 140 lines at a cost of \$14.00.

For this we received, asked for or expected nothing. Again this year, Mr. Snyder sent to this office over 600 words of advertising to be sent to his lecturers.

This matter was sent on Wednesday and on the same day, a few hours later, a representative of this paper called on Mr. Snyder at his office and explained to him that the manager of the Advocate didn't feel free to publish so much matter on one subject without some compensation.

Mr. Snyder, however, refused to pay anything for the advertising in this paper for 1891, and as a result his copy still hangs unused on our office hooks.

The Carbon Advocate views the institute matter in precisely this light: Mr. Snyder receives a salary of \$1500 per year for his outstaying in the cause of education, he can accordingly afford to be very zealous in his work; the ball in which the institute is held he pays rent for; every teacher attending the institute is paid at his or her pro rata of the salary he or she receives.

It is true, as you see that every body connected with the Carbon County Teachers' Institute receives pay for services rendered. Why then should the newspapers of the county not receive some compensation for advertising the institute?

Mr. Snyder's local notices, that are a single reference to the day sessions of the institute, every word was for the evening lectures, and accordingly the Carbon Advocate asked for some compensation for the work of advertising the institute.

Mr. Snyder looked on our request as an insult to the powers vested in him and he lies into his customary "boot strap" attitude. He goes into print, and then with all the principles of an inmate covered assails the representative of this paper in a public hall where he can not be answered.

His efforts to stand as a martyr in this case is only an exhibition of his weakness, an effort to gain sympathy at our expense, while the Carbon Advocate gives vent to some of his low, mean and contemptible little prejudices that have warped and twisted what ever better nature he had into a vicious and contemptible disposition.

Mr. Snyder, they know what we say to be distinctly true, only a good deal worse. The teachers know that if they do not bow to him they incur his ill will, and to those who do are not the possession of their lives.

Mr. Snyder, they know what we say to be distinctly true, only a good deal worse. The teachers know that if they do not bow to him they incur his ill will, and to those who do are not the possession of their lives.

It looks a good bit as though Dr. Lathan, of Weatherly, had put his foot in his mouth.

IT IS ONLY ANOTHER BEAUTIFUL COMPLIMENT of an old and very truthful aphorism—"he who laughs last laughs best." For some weeks the editor of the Mauch Chunk Democrat has been filling the columns of that paper for the satisfaction of "readers" with numerous garrulous articles reflecting on editorial matter in the Carbon Advocate.

Knowing the character of the editor of that paper and his capacity for platitudes and platitudes, we had to have, say, feeling that our situation was not what we had to say, and now this incident has revealed in his own dirt and filth. It is even so, and now this incident has revealed in his own dirt and filth.

It is even so, and now this incident has revealed in his own dirt and filth. It is even so, and now this incident has revealed in his own dirt and filth.

It is even so, and now this incident has revealed in his own dirt and filth. It is even so, and now this incident has revealed in his own dirt and filth.
