NOTICE.

Pursuant to the Rules of the Democratic party, of Carbon county, Notice is hereby given, that the Annual County Meeting of the Democrats of Carbon county will be held at Mauch Chunk, Pa., in the Court House, on Monday August 15th, 1892, at 1 o'clock, P. M.; at which meeting officers are to be appointed for holding Delegate Elections, the day for holding Delegate Elections is to be fixed, as also the time for holding the County Convention. Members of the County Committee for the ensuing year are also to be elected. FRANK P. SHARKEY,
Chairman Dem. County Committee.

RAPSHER & CASSIDY, of Mauch Chunk, have opened a branch office at Hazleton. Both are wise, sagacious, brilliant legal lights, and will no doubt do well in the city of cave-ins. We wish 'em success.

THE SIGNS OF PEACE in the Democratic horizon are few and far between. A lamentable circumstance, an unnecessary and uncalled for condition of affairs that the rank and file of the party should not allow to exist by virtue of their power. Let the leaders get together, or if they won't the file of the party should choose new leaders.

NO ONE CAN understand the trials and difficulties of a councilman but that august individual himself, and particularly is this the case in our little city, when with an almost depleted treasury they are confronted with the expense of a hundred and one improvements that are almost if not practically a necessity, and yet things must remain as they are. It takes the wisest economical engineering to make ends meet with expensive lawsuits on hand, but we hope to see things come out right and Lehighton move forward with old-time enthusiasm before another year rolls by. Let the people be patient yet a little while and all will be well. Those who would handicap the town's interests now will soon be full of regrets for so doing.

RAILROAD NOTES.

Short Paragraphs That Will be of Interest to the Railroad Boys.

† According to the Iron Age of May 26, the Baldwin Locomotive Works has booked an order from the Lehigh Valley Company for 28 new locomotives and from the Reading Company for four. Two of the former are of the Vauclain compound pattern, while the Reading's four are to be used between Philadelphia and New York.

‡ The Reading requires from each conductor and baggage master as bond $250. Not only this but blanks have been distributed among station agents as well asking some personal questions, among them in reference to property owned, and asking a statement of their employment for the last ten years. The employes do not take kindly to answering questions of this character.

‡ Beginning with the May pay rolls the Lehigh Valley employees will be paid by check instead of cash as heretofore. The new system will go into effect with the June pay day. The checks will be drawn on the Liberty National Bank of New York, or the Bank of North America, Philadelphia. Local banks at Mauch Chunk, Hazleton and Wilkes-Barre will cash these checks at their full value, as will also the station agents so far as their funds will permit. This new order does not suit the boys in this neighborhood.

Suit Against the Reading.

A bill in equity was filed in the Northampton County Court on Saturday afternoon against the Reading R. R. combine. The suit was brought by some of the stockholders who have large holdings in Lehigh Valley railroad stock. They say the lease to the Philadelphia and Reading is void because the combination is for the purpose of creating a monopoly in the production and transportation of anthracite coal, and that this lease was made by the directors of the Lehigh Valley without the consent of the stockholders, or without notice to them, and is still held without the consent or ratification of the stockholders.

On June 30 the attorneys representing the stockholders will ask for a preliminary injunction against the Reading, and move for the appointment of a receiver for the Lehigh Valley Railroad Company, claiming that the Philadelphia & Reading is exerting all its power to divert passenger travel and freight traffic from the lines of the Lehigh Valley to the Reading system, and that if the lease is not at once set aside the Lehigh Valley, when finally the surrender of the lease must be decreed by the courts, will not be able for a long period of years to pay any dividends by reason of this freight traffic and passenger travel being diverted.

Gettysburg.

The New York Commercial Advertiser says in a recent editorial:

"There is no spot in this country so attractive to those who have patriotic emotions, and who honor heroic deeds, as the quiet little town in Southern Pennsylvania, known as Gettysburg, which the great battle of the Civil War has made historic for all time. Unlike Waterloo, this field is marked by monuments which tell every detail of the struggle. Nearly four hundred of them mark the spots where the Federal forces fought and won everlasting glory. Many of these monuments are genuine works of art. In fact, this famous battle-field is a grand outdoor National Gallery of Art—hence Art. Nothing like it can be seen on either hemisphere. Twenty miles of roads have been laid out on the field, and a million dollars' worth of bronze and marble may be seen to a day. As an object for Summer Excursions there is no such spot on the Continent. The scenery about Gettysburg is beautiful and full of repose. Its hotels are good, its people hospitable and aggressive, and the Reading Railroad has made the journey thither comfortable and even luxurious.

STATE MATTERS IN BRIEF.

The Best of News Culled From a Multitude of Sources.

† The authorities at the lunatic asylum at Danville were dazed when told that an appropriation of $70,000 made by the Legislature in 1889 to build an annex to the asylum had reverted to the State Treasury because the work of construction had not been begun within the specified time. The hospital has 1,300 patients and but room enough to accommodate 900 properly.

† "Joe" Tichen, aged 9 years, and Casimir Tichen, aged 16, climbed a tree at Scranton to rob a bird's nest. While in the tree lightning struck it and Joe was killed. Casimir was stunned. His clothes caught fire and he was burned so badly that he will die.

† A church council of Baptist clergymen met at Chester and decided the ordination of Rev. William H. Wentz null and withdrew the hand of fellowship as a member of the Gospel. The charges against the young clergyman were that he forged a letter, second, repeated and persistent falsehood, and third, endeavoring to be released from his married relation on the ground of desertion. Wentz was present and admitted all the charges.

† Dr. Thomas G. Morton, of the State Board of Charities, has submitted a minority report to the Governor on the Huntingdon Reformatory investigation. He reflects upon Deputy Superintendent Smith and declares that his punishments are dangerous and cruel. His recommendations are in line with the majority report.

† During a sham battle on the Lehigh County Fair grounds County Surveyor Charles W. Wentzell was engaged in loading a cannon, when the weapon exploded prematurely and he was killed.

A Lazy, Though Shrewd Fellow.

Tulkinson—a barrister and bachelor combined, by the way—is a very systematic man. The other day he had his house fitted with electrical appliances, and giving instructions to his servant Joseph, he said:

"Now I want you to understand, Joseph, that when I ring once that means for you, and when I ring twice that means for Maggie, the housemaid."

Joseph, who is the laziest wretch that ever accepted wages he did not earn, bowed respectfully and withdrew. A little later the bell rang. Joseph never moved. Presently it rang again, and according to instructions Maggie came hurrying to her master, who was very angry.

"Why didn't that rascal, Joseph, come when I rang for him?" said the barrister bachelor disgustedly.

"Why, sir," answered Maggie, "Joseph is busy in the office reading your newspaper. When he heard the first ring he said to me, 'Now, Maggie, wait until he rings the second time, and then it will be you he wants.'"—London Tit-Bits.

Strange Cave Dwellers in Spain.

At a meeting of the Royal Geographical society, of Madrid, Dr. Bide gave an account of his exploration of a wild district in the province of Caceres, which he represented as still inhabited by a strange people who speak a curious patois and live in caves and inaccessible retreats. They have a hairy skin and have hitherto displayed a strong repugnance to mixing with their Spanish and Portugese neighbors. Roads have lately been pushed into the district inhabited by the "Jurdes," and they are beginning to learn the Castilian language and attend the fairs and markets.—W. H. Larrabee in Popular Science Monthly.

The Growth of Railroad Mileage.

In 1830 there were twenty-three miles of railway in operation in the United States. By 1832 the mileage had increased to 229 miles, and in 1835 the country had 1,098 miles of railroad. The first through railroad from the east westward was completed in 1842 between Boston and Albany, connecting at the latter place with the Erie canal. In the same year the last link of the line from Albany to Buffalo was opened. At the end of 1848 the total mileage of all the railroads in the country was 5,996 miles, or about 500 miles more than there are now in the state of Nebraska.—Edward Rosewater's Omaha Address.

That he can well wait?
And when all the roads are just awful—
Then get a low "Corning" of Harry,
For SIXTY-FIVE DOLLARS!—don't tarry!
And he'll run on all roads that are lawful.

From Kreidler's nice pile,
And you'll no longer these evils ENDURE.
