A BIG BLAZE

Somehow, nobody knows how, nor never will, a fire originated in Hellman a typical mill on Monday night shortly after six o'clock and a few minutes later the building was a mass of mad, seething flames which crept in and around the work of the stone building, then spread to the old homestead occupied by John Hellman, Jr., then it skirted off to the immense ice house of Ober & Helman, and from there to the large stable and not satisfied with this it swept out of its way with relentless fury all the houses even to the smallest hen coop. There was nothing saved from the mill, which held at any one time in its yard, stock. Even the hocks went so that the loss is a very heavy one and may go way up into the thousands. From the house most all the furniture was saved by the score of willing workers, and carried to a point on the hill side and later was taken to the stable of John S. Lantz near Alam streets. In the stable at the time were a number of horses among the number being the valuable animals belonging to Horace Heydt, Esq., son-in-law to Moses Hellman. These were all saved fortunately as was also all the other live stock.

On the ice houses which were the property of Ober & Helman there was a partial insurance, on the mill, dwelling house, stable, etc., which belong to the Lehigh Valley Railroad Company there was no insurance. On the stock in the mill, it is also said there was \$1000 insurance. The loss therefore, is a heavy one on our esteemed townsmen Hellman & Helman and the immense sympathy of all our people in their misfortune.

It is very fortunate for Lehighton that the fire originated in the quarter that it did. Had it broken out anywhere else in the town, there is nothing to be sure, but the loss would have been a complete destruction by fire. There was quite a breeze blowing at the time and sparks were carried as far north as the Catholic church, but fortunately without doing any harm. We have practiced no fire protection outside of 150 feet of houses, sections of which George B. M. Stocker, of Lehigh No. 1, had carried at his own expense to points along Alamus street, in anticipation of the flames spreading. There was no need for the house. This town is a very happy one among the members being our leading business and professional men but the company is handicapped. No horse carriage, no horse house, no nothing, but an organization, with this lesson of lessons staring us in the face let all our people bestir themselves so that we get the necessary protection.

The destroyed mill and dwellings were among the oldest in the town and for many years was the home of Mr. Hellman.

Card of thanks.

The undersigned tenders sincere thanks to the people who so generously have in one or another assisted him since the accident which befell him almost a year ago at Hellman's ice house. He has now an artificial limb and is otherwise restored to health.

ALCOHOL FOR DIPHTERIA.

The medical Times says alcohol is the prince of antiseptics and is diphteria the most perfect and reliable medicine known. Diluted with equal parts of water and given in small and repeated doses, the malignant symptoms of this most fatal malady soon disappear, and convalescence becomes assured. It is interesting to note with what facility the alcohol dissolves the diphteria exudation in the throat, and the destructive action upon the surface of the diphtheria, which has been absorbed by the glands and gained access to the blood. The Times recommends that people exposed to diphteria use diluted alcohol and swallow a little of it three or four times a day.
