A Good Opportunity. We hear much these days about the probable extent from the cities this coming spring owing to the fear of the cholera. This seems quite likely, and it would be well for Lehighton people to take some steps toward bringing the advantages of living in this vicinity to the city people in a conspicuous manner.

We certainly have every inducement to offer those seeking a country residence, and with our excellent railroad facilities, extremely healthy location, good schools, fine churches and beautiful drives, all to be had on reasonable terms, it seems to us that we should see in the near future an awakening in business and society in general by an influx of new and desirable citizens, such as would readily repay any effort and expense which may be necessary to accomplish this end.

Letter Editor. The Ladies Union will hold their next meeting on the evening of March 10th, to which all are cordially invited to attend. The following program has been arranged:
